RR ROUND RICH DESIGN 160ml Ultrasonic Ceramics Pineapple Humidifier User Manual

Model: RR-ZC-0001

Introduction Safety Information Package Contents Product Overview Setup Operating Instructions Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

Thank you for purchasing the RR ROUND RICH DESIGN 160ml Ultrasonic Ceramics Pineapple Humidifier. This device combines humidification, aromatherapy, and a night light function, designed to enhance your environment with fine, uniform mist and soothing illumination. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. Important Safety Information

Please read and follow all safety instructions to prevent injury or damage.

- Always use essential oils as directed.
- Keep out of reach of children and pets.
- Avoid direct skin contact with undiluted essential oils.
- Ensure proper ventilation during use.
- Do not exceed the maximum water line (160ml).
- Use only the provided power adapter.
- Do not immerse the unit in water or other liquids.
- Unplug the unit before cleaning or refilling.

3. Package Contents

Verify that all items are present in your package:

- 1 x Humidifier Host (Base and Water Tank)
- 1 x Ceramic Pineapple Cover
- 1 x AC Adapter
- 1 x Instruction Manual

4. Product Overview

Familiarize yourself with the components of your humidifier:

- **Ceramic Pineapple Cover:** Decorative outer shell.
- **Mist Outlet:** Located at the top, releases cool mist.
- **Water Tank:** Holds up to 160ml of water and essential oils.
- **Base:** Contains the ultrasonic transducer, LED lights, and control buttons.
- **Light Button:** Controls LED light settings.
- **Power Button:** Turns the unit on/off and controls mist.
- **DC Jack:** Power input port on the underside of the base.

5. Setup Instructions

Follow these steps to set up your humidifier for first use:

1. **Remove the Cover:** Gently lift the ceramic pineapple cover and the inner lid from the base.
2. **Connect Power:** Plug the AC adapter into the DC jack located on the underside of the humidifier base. Then, plug the adapter into a standard US 120V wall outlet.
3. **Add Water:** Fill the water tank with clean tap water. Do not exceed the 160ml maximum fill line.
4. **Add Essential Oils (Optional):** Add 2-3 drops of your preferred essential oil directly into the water tank. Adjust quantity based on personal preference.
5. **Replace Covers:** Place the inner lid back onto the water tank, ensuring it is properly seated. Then, carefully place the ceramic pineapple cover back onto the base, aligning it correctly.

Image: A visual guide demonstrating the four easy steps for setting up the humidifier: removing the cap, connecting the adapter, adding water and essential oil, and replacing the cap.

6. Operating Instructions

Once set up, operate your humidifier using the touch-sensitive buttons on the base:

6.1 Mist Function

- **To Turn On Mist:** Press the Power button (right button). The unit will begin producing a cool mist.
- **To Turn Off Mist:** Press the Power button again.

6.2 LED Light Function

The humidifier features 7 soothing LED light colors. You can cycle through them or set a fixed color:

- **To Turn On Lights:** Press the Light button (left button). The lights will turn on and cycle through colors.

- **To Set a Fixed Color:** Continue pressing the Light button to cycle through the colors until your desired color is displayed.
- **To Turn Off Lights:** Press and hold the Light button for 3 seconds.

7. Maintenance

Regular cleaning helps maintain optimal performance and extends the lifespan of your humidifier:

1. **Unplug the Unit:** Always ensure the humidifier is unplugged from the power outlet before cleaning.
2. **Empty Water:** Remove the ceramic cover and inner lid, then carefully empty any remaining water from the tank.
3. **Wipe Down:** Use a soft, damp cloth to wipe the inside of the water tank and the exterior of the unit.
4. **Clean Ultrasonic Plate:** Gently wipe the ultrasonic plate (located at the bottom of the water tank) with a cotton swab dipped in white vinegar to remove any mineral buildup. Rinse thoroughly with clean water, avoiding direct contact with the air outlet.
5. **Dry Thoroughly:** Allow all parts to air dry completely before reassembling or storing the unit.

Do not use harsh detergents, abrasive cleaners, or solvents, as these may damage the unit.

8. Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or weak mist	Insufficient water level Ultrasonic plate dirty Unit not powered on	Add water to the tank (up to 160ml) Clean the ultrasonic plate (see Maintenance) Press the Power button to turn on

Problem	Possible Cause	Solution
No LED light	Light function off Unit not powered on	Press the Light button to activate Press the Power button to turn on
Water leaking from unit	Covers not properly seated Overfilled water tank Damaged silicone ring	Ensure inner lid and ceramic cover are correctly placed Do not exceed the max fill line Check for damage to the silicone ring and contact support if necessary
Unusual noise	Low water level Unit not on a flat surface	Add water to the tank Place the unit on a stable, flat surface

9. Specifications
