

KORG PA1000

Korg Pa1000 Professional Arranger User Manual

Model: PA1000 | Brand: KORG

INTRODUCTION

The Korg Pa1000 Professional Arranger keyboard is designed to help musicians realize their musical ideas with world-class sounds. It combines Korg's renowned arrangement functions with features from their flagship Pa4X arranger. With over 420 styles, 1,700 sounds, and 600MB of storage for user samples, the Pa1000 is versatile for various composition styles. Its 7-inch TFT color touchscreen simplifies navigation and offers intuitive MIDI and effects control. Additionally, a mic/line/instrument input with studio-quality TC-Helicon effects processing makes the Pa1000 a powerful workstation for modern composers.

KEY FEATURES

- 61-key Arranger Workstation with over 1,700 sounds.
- Integrated TC-Helicon Vocal Processor for enhanced vocal performance.
- Powerful 2 x 33W Speaker System for clear audio output.
- Over 420 pre-loaded Styles to inspire and accompany your compositions.
- Intuitive 7-inch TFT Color Touchscreen for easy navigation and control.
- Defined Nuance Control (DNC) for adding realism to performances, allowing for expressive control over instrument sounds.

SETUP

Unpacking and Initial Inspection

Carefully remove the Korg Pa1000 from its packaging. Retain all packing materials for future transport or storage. Inspect the instrument for any signs of damage that may have occurred during shipping. If any damage is found, contact your dealer immediately.

Power Connection

Connect the supplied AC power cable to the AC IN jack on the rear panel of the Pa1000. Plug the other end into a suitable AC outlet. Ensure the power switch is in the OFF position before connecting. The power source is USB, but this refers to internal power management or specific USB functions, the main power is AC. Refer to the rear panel image for the AC IN jack location.

Figure 1: Rear panel of the Korg Pa1000, highlighting the power input and various audio/MIDI/USB ports for connectivity.

Audio Connections

For audio output, connect the main audio outputs (L/MONO, R) to your mixer, amplifier, or powered speakers using standard 1/4-inch TS cables. For headphone monitoring, use the 3.5mm headphone jack located on the front left side of the keyboard. The Pa1000 also features a built-in 2 x 33W speaker system for direct sound output.

USB Connectivity

The Pa1000 supports USB connectivity for data transfer and MIDI communication. Use the USB TO DEVICE port for connecting USB storage devices (e.g., flash drives) and the USB TO HOST port for connecting to a computer. This allows for easy transfer of Styles, Sounds, and other data, as well as integration with supported software like Cubase, Logic Pro, and Ableton Live.

OPERATING INSTRUCTIONS

Powering On/Off

To power on the unit, press the POWER button located on the rear panel. The 7-inch TFT color touchscreen will illuminate and display the KORG logo followed by the loading screen. To power off, press and hold the POWER button until the unit shuts down completely.

Figure 2: Front view of the Korg Pa1000, showing the 61-key keyboard, control panel, and integrated touchscreen display.

Navigating the Touchscreen

The 7-inch TFT color touchscreen is the primary interface for controlling the Pa1000. Tap on icons and menus to select functions, adjust parameters, and browse through sounds and styles. Use the physical buttons surrounding the screen for quick access to common functions like Style Play, Song Play, Sound, and Global settings.

Figure 3: Angled view of the Korg Pa1000, providing a better perspective of the touchscreen's position and the overall layout of the controls.

Using Styles and Sounds

The Pa1000 comes with a vast library of over 420 Styles and 1,700 sounds. To select a Style, press the STYLE PLAY button and use the touchscreen to browse categories and choose your desired accompaniment. Similarly, press the SOUND button to access and select different instrument sounds. The keyboard features a 61-key layout suitable for various musical performances.

Defined Nuance Control (DNC)

DNC allows for adding realistic nuances to your performances. Utilize the three assignable switches and the four-way joystick to control elements like growls for saxophones, embouchure changes for trumpets, or breath sounds for harmonicas. Experiment with these controls to bring more expression to your playing.

MAINTENANCE

Cleaning

To clean the Korg Pa1000, use a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using abrasive cleaners, solvents, or waxes, as these can damage the finish and electronic components. Regularly wipe down the keys and control surfaces to prevent dust buildup.

Storage

When not in use for extended periods, store the Pa1000 in a cool, dry place away from direct sunlight and extreme temperatures. Covering the keyboard with a dust cover is recommended to protect it from dust and debris.

Transportation

If transporting the instrument, use a dedicated keyboard case or the original packaging to ensure its safety. Avoid subjecting the unit to excessive shocks or vibrations.

TROUBLESHOOTING

Unit Does Not Power On

- Ensure the power cable is securely connected to both the Pa1000 and a working AC outlet.
- Verify that the power outlet is active by testing it with another device.
- Check the power switch on the rear panel to ensure it is fully engaged.

No Sound Output

- Check the master volume knob on the Pa1000 and ensure it is turned up.
- Verify that external speakers or headphones are properly connected and their volume is adjusted.
- Ensure that the correct sound is selected and not a silent patch.
- If using external audio equipment, check all cable connections and the settings of your mixer/amplifier.

Screen Freezes or Unit Shuts Off During Startup

If the unit experiences unexpected shutdowns or freezes during startup, try the following:

- Perform a hard reset by disconnecting the power cable, waiting for 30 seconds, and then reconnecting it.
- Ensure the firmware is up to date. Visit the KORG official website for the latest firmware updates and installation instructions.
- If the issue persists, it may indicate a hardware problem. Contact KORG customer support or an authorized service center.

SPECIFICATIONS

Feature	Detail
Model Name	Pa1000
Number of Keys	61
Display	7-inch TFT Color TouchView™ Display
Sounds	Over 1,700 factory sounds
Styles	Over 420 factory styles
Internal Storage	600MB for user samples

KORG PA-1000

Produttore : Korg
Cod.Art. : 65559

TASTIERA DINAMICA PROFESSIONALE 6
TASTI

PCMC presentava l'unico PC recente High Performance ancora senza sistemi di gestione personalizzati. Il Korg Pa1000 possiede un esclusivo database di suoni, completamente rinnovato, che include anche i suoni di strumenti e di percussioni. Inoltre, il nuovo software Nuance Connect, che consente di collegare il grado di realismo ancora maggiore. Le performance del nativo database di suoni sono state ampliate con la possibilità di collegare il database di suoni di copie brillantemente simili a quelle di genere musicale. Inoltre, il software Nuance Connect, che consente di collegare i suoni di funzioni di gestione, ed è un'alternativa unica rapida ed intuitiva. Il grado di soddisfare le esigenze dei musicisti più esperti. Il nuovo software Nuance Connect, che consente di collegare i suoni di funzioni di gestione, ed è un'alternativa unica rapida ed intuitiva. Il grado di soddisfare le esigenze dei musicisti più esperti. Il nuovo software Nuance Connect, che consente di collegare i suoni di funzioni di gestione, ed è un'alternativa unica rapida ed intuitiva.
