## Pure Enrichment PEHUMPRO

# Pure Enrichment HumeXL Pro Humidifier User Manual

Model: PEHUMPRO

## INTRODUCTION

---

Thank you for purchasing the Pure Enrichment HumeXL Pro Warm and Cool Mist Humidifier. This manual provides important information regarding the safe operation, setup, maintenance, and troubleshooting of your new humidifier. Please read this manual thoroughly before use and retain it for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

---

- Always place the humidifier on a firm, flat, water-resistant surface away from direct sunlight and heat sources.
- Do not place the humidifier directly on carpet, wood floors, or finished surfaces that may be damaged by water or moisture.
- Do not use additives like essential oils or medications directly in the water tank, as this may damage the unit and void the warranty.
- Unplug the humidifier from the power outlet before filling, cleaning, or performing any maintenance.
- Keep the humidifier out of reach of children and pets.
- Do not block air vents or mist outlets.
- If the humidifier is not working properly, do not attempt to repair it yourself. Contact customer support.

## PRODUCT COMPONENTS

---

Familiarize yourself with the parts of your HumeXL Pro Humidifier:

This image displays the disassembled components of the HumeXL Pro Humidifier, including the Humidifier Base, 5-Liter Water Tank, Water Tank Cap, and Remote Control. It also highlights the extra-large tank opening for easy cleaning.

- **Humidifier Base:** Contains the ultrasonic transducer, fan, and control panel.
- **5-Liter Water Tank:** Removable tank for holding water.
- **Water Tank Cap:** Seals the water tank and contains the water valve.
- **Mist Nozzles:** Two 360-degree rotating nozzles for mist output.
- **Control Panel:** Touch-button interface with LED display.
- **Remote Control:** For convenient operation from a distance.

## SETUP

1. **Unpack:** Carefully remove all components from the packaging.

2. **Position:** Place the humidifier on a flat, stable surface at least 6 inches away from walls and furniture. Ensure the surface is water-resistant.
3. **Fill Water Tank:**
  - Remove the water tank from the humidifier base.
  - Unscrew the water tank cap from the bottom of the tank.
  - Fill the tank with clean, cool tap water. Distilled water is recommended to minimize mineral buildup. Do not fill past the MAX line.
  - Securely screw the water tank cap back on.
4. **Place Tank on Base:** Carefully place the filled water tank back onto the humidifier base, ensuring it is seated correctly.
5. **Connect Power:** Plug the power cord into a standard 120V AC electrical outlet. The LED display will illuminate briefly.

## OPERATING INSTRUCTIONS

---

### Control Panel and Remote Control

The main unit of the HumeXL Pro Humidifier showing its sleek design, LED display, and the included remote control for convenient operation.

The humidifier can be operated using the touch-button control panel on the unit or the included remote control. The functions are identical.

- **Power Button (⏻):** Turns the humidifier ON or OFF.
- **Mist Output Button (↑↓):** Cycles through low and high mist output settings.
- **Warm Mist Button (🔥):** Activates warm mist mode. Press again to turn off warm mist.
- **Humidity Setting Button (📏%):** Sets desired humidity level (e.g., 40%, 50%, 60%). The unit will automatically turn off when the set humidity is reached and restart when it drops.
- **Timer Button (🕒):** Sets an operating timer for 1, 2, 4, or 8 hours.
- **Night Mode Button (🌙):** Dims the LED display and turns off the soft glow night light for undisturbed sleep. Press any button to exit night mode.

## Mist Output and Coverage

This image illustrates the two independent 360-degree rotating mist nozzles, providing versatile mist direction for comprehensive room coverage.

The HumeXL Pro features two independent 360-degree rotating mist nozzles. You can adjust their direction to provide mist in opposite directions for wide room coverage or point them in the same direction for more concentrated mist output.

## Whisper-Quiet Operation and Night Light

Safe, Whisper-Quiet  
Operation

**GREAT FOR LIGHT SLEEPERS**

The image shows the HumeXL Pro Humidifier in a bedroom setting, emphasizing its safe and whisper-quiet operation, making it ideal for light sleepers.

This image highlights the soft glow night light feature at the base of the humidifier, which can be turned off using Night Mode for undisturbed sleep.

The integrated body design of the HumeXL Pro suppresses noise, ensuring whisper-quiet operation suitable for bedrooms, nurseries, or offices. An optional soft glow night light at the base provides a relaxing ambiance. This light can be turned off using the Night Mode setting on the control panel or remote.

## MAINTENANCE AND CLEANING

---

Regular cleaning is essential to maintain optimal performance and prevent mineral buildup and bacterial growth.

### Daily Maintenance

- Empty the water tank and base reservoir daily.
- Rinse the water tank and base reservoir with fresh water.
- Refill the tank with clean, cool water.

## Weekly Cleaning

The image highlights the extra-large tank opening of the HumeXL Pro Humidifier, designed for easy hand washing and thorough cleaning of the interior.

1. **Unplug:** Always unplug the humidifier before cleaning.
2. **Empty Water:** Remove the water tank and empty any remaining water from both the tank and the base reservoir.
3. **Clean Water Tank:** The large opening of the 5-liter water tank allows for easy hand washing. Use a soft brush or cloth to clean the inside of the tank with a mild dish soap solution. Rinse thoroughly.
4. **Clean Base Reservoir:** Gently wipe the inside of the base reservoir with a soft cloth or sponge. For mineral buildup, use a 50/50 solution of white vinegar and water. Let it soak for 10-15 minutes, then gently scrub and rinse thoroughly. Do not immerse the base in water.
5. **Clean Transducer:** The ultrasonic transducer (the small disc in the base) can accumulate mineral deposits. Gently clean it with a cotton swab dipped in white vinegar. Do not scrape or use abrasive materials.

6. **Air Dry:** Allow all parts to air dry completely before reassembling.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
No mist output.	No water in tank/base. Unit not plugged in. Mineral buildup on transducer.	Refill water tank. Ensure power cord is securely plugged in. Clean the ultrasonic transducer as per maintenance instructions.
White dust around humidifier.	Hard water used.	Use distilled or demineralized water. Clean unit regularly to remove mineral deposits.
Unusual odor.	New unit smell. Stagnant water or mineral buildup.	Run unit for a few days, odor should dissipate. Clean the water tank and base thoroughly.
Humidifier leaks.	Water tank cap not secured. Unit not on a level surface. Overfilled water tank.	Ensure water tank cap is tightly screwed on. Place unit on a flat, level surface. Do not fill water past the MAX line.
