Material	Aluminum, Tempered Glass

U-channel Adjustment	1/2 inch for out-of-plumb (uneven walls)
Item Weight	97 Pounds
Product Dimensions	1 x 34 x 72 inches
Assembly Required	Yes
Installation Method	Screw-In
Usage	Inside

## INCLUDED COMPONENTS

---

- Single Glass Panel
- Anodized Aluminum U-channel
- Installation Hardware

## SETUP AND INSTALLATION

---

Professional installation is recommended for this product.

### Pre-Installation Checks

Before beginning installation, it is crucial to evaluate your shower space to ensure compatibility and proper fit. This includes checking wall conditions and measurements.

Your browser does not support the video tag.

*Video: DreamLine Shower Door Buyers Guide. This video provides essential pre-installation requirements for evaluating your shower space, including checking for finished openings and plumb walls.*

### Wall Preparation

- Ensure your shower walls are finished (e.g., tiled, backerboard, acrylic walls) before taking final measurements. Unfinished walls (exposed studs) must be completed first.
- Any materials added to the walls will decrease the size of the rough opening.

### Measuring Your Shower Space

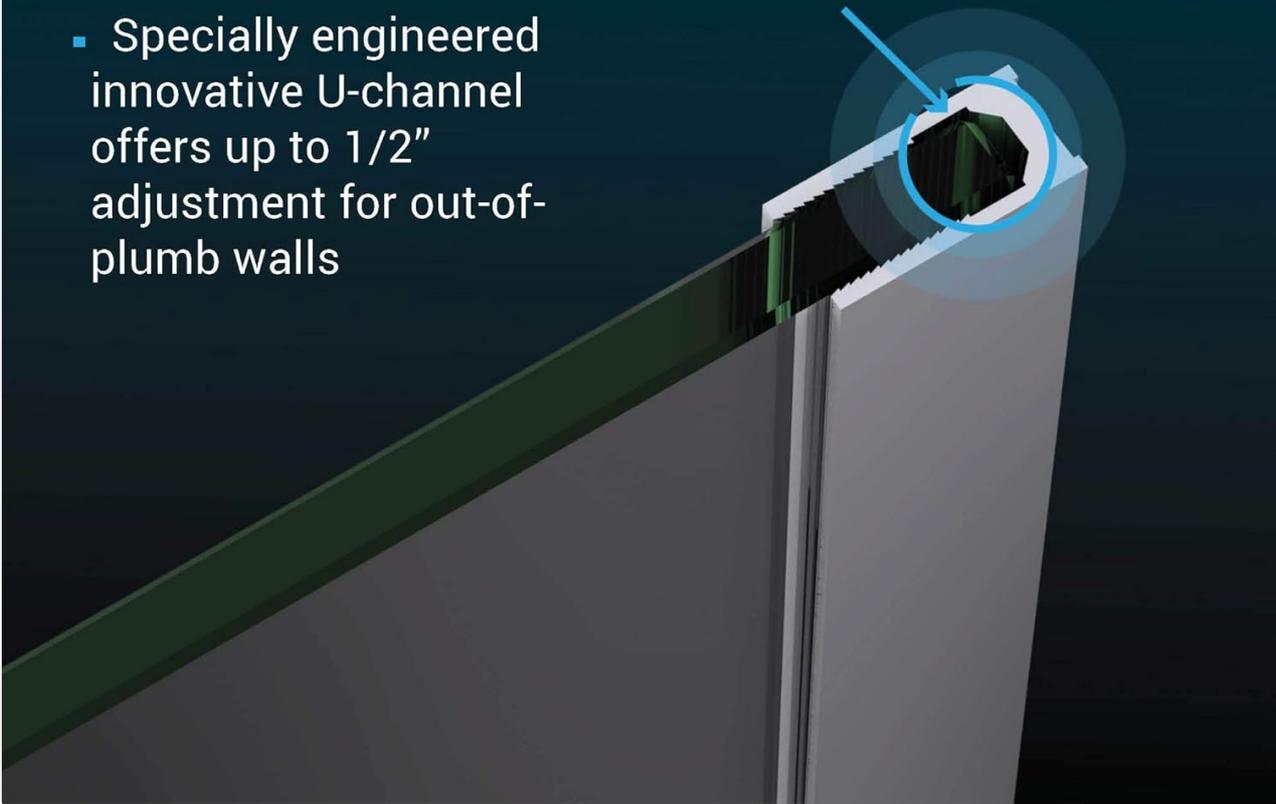

- Measure the width of your finished shower opening at the top, middle, and bottom. Record these measurements.
- Only use finished opening measurements when selecting your DreamLine shower screen.

### Checking for Plumb Walls

- Use a 4-foot level to check if your walls are perfectly vertical (plumb) and if your threshold is level.
- If walls are not plumb, the 1-inch U-channel provides up to 1/2 inch adjustment for uneven walls. For significant out-of-plumb conditions, consult a professional.

## Have a Challenging Installation?

- Turn imperfect walls into a perfect shower space
- Specially engineered innovative U-channel offers up to 1/2" adjustment for out-of-plumb walls

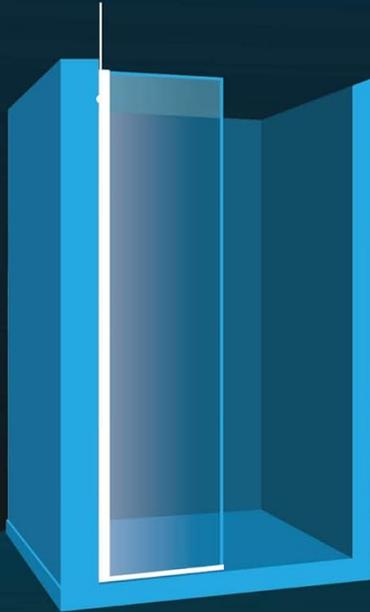

*Image: Diagram illustrating the custom adjustment feature of the U-channel, allowing for up to 1/2 inch adjustment for out-of-plumb walls.*

### **Reversible Installation**

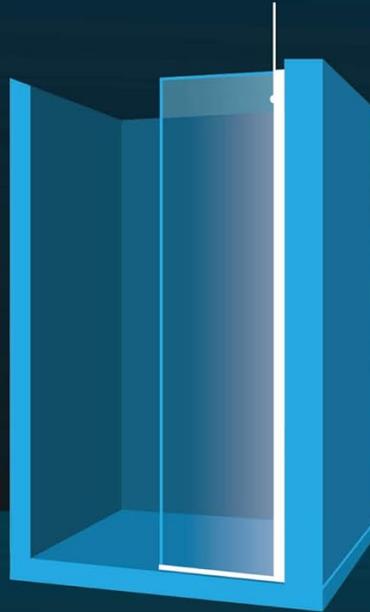

- The shower screen is reversible, allowing for a right or left walk-in opening to fit your specific bathroom layout.

# Reversible Installation

Left Wall

Right Wall

Reversible for a Right or Left Wall Installation

## Shower Head Placement

- To minimize splashing, always install the shower head on the same side as the fixed shower panel, opposite the open space.
- This model does not provide wall-to-wall coverage, so careful consideration of shower head placement is essential.

## OPERATING YOUR SHOWER SCREEN

---

The DreamLine Linea Fixed Shower Screen is a stationary panel designed to create an open, walk-in shower experience. No moving parts are involved in its operation. Simply walk into the designated shower area.

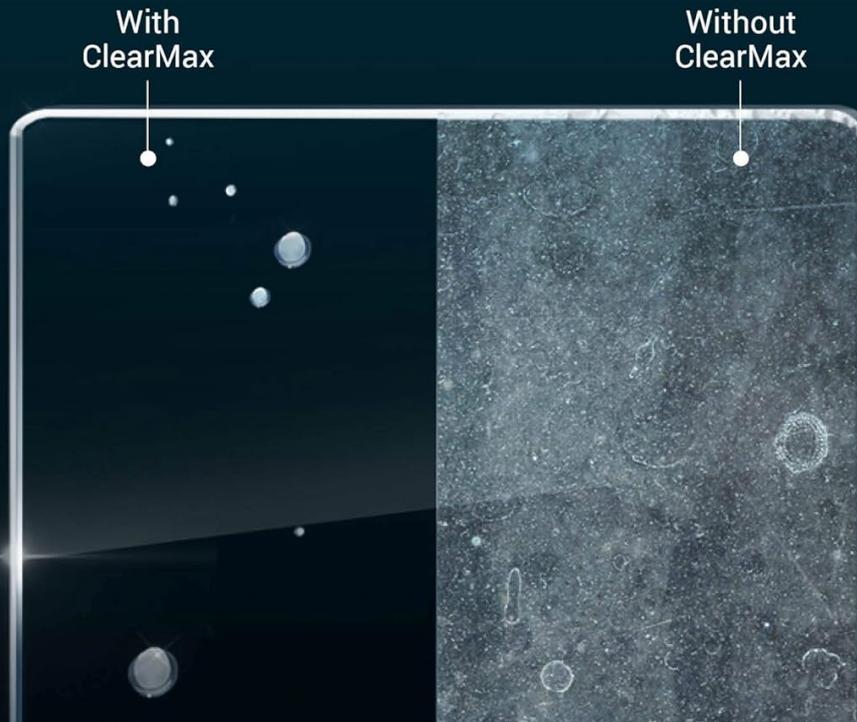

## CARE AND MAINTENANCE

---

The DreamLine Linea shower screen features ClearMax water repellent and stain-resistant glass coating. This factory-applied proprietary coating provides superior protection from stains and allows water to bead and easily roll off the glass, making upkeep nearly maintenance-free.

- Regularly wipe down the glass with a soft cloth after each use to prevent water spots and soap scum buildup.
- For deeper cleaning, use a non-abrasive glass cleaner specifically designed for shower glass. Avoid harsh chemicals or abrasive pads that could damage the ClearMax coating or hardware finish.
- Clean the Matte Black hardware with a soft, damp cloth. Do not use abrasive cleaners or solvents.

# CLEARMAX<sup>®</sup>

▪ **Factory Applied Proprietary Coating**

▪ **Protects from Limescale Buildup**

▪ **Water Resistant Surface**

*Image: Diagram illustrating the benefits of DreamLine's ClearMax protective glass coating, showing how it repels water and prevents limescale buildup compared to untreated glass.*

## TROUBLESHOOTING

- **Water Leakage:** Ensure all seals are properly installed and intact. Verify that the shower head is positioned correctly to direct water away from the open entry. Check for proper caulking around the U-channel.
- **Panel Instability:** Confirm that the U-channel is securely fastened to the wall studs or appropriate blocking. Ensure all screws are tightened according to installation instructions.
- **Glass Stains/Spots:** Despite ClearMax coating, hard water can still leave residue. Use recommended glass cleaners and wipe dry after each use. For stubborn spots, consult DreamLine's cleaning guidelines.

## WARRANTY INFORMATION

The DreamLine Linea Frameless Fixed Shower Screen comes with a **Lifetime Limited Manufacturer Warranty** for the glass. All hardware finishes are covered by a **Three (3) Year Warranty**. Please retain your proof of purchase for warranty claims.

## CUSTOMER SUPPORT

---

For further assistance, technical support, or to inquire about replacement parts, please visit the official DreamLine website or contact their customer service department. Ensure you have your model number (SHDR-3234721-09) and purchase details available.
