DART C16B

DART C16B 16 oz Clear OPS Plastic Bowl Instruction Manual

Model: **C16B** | Brand: **DART**

INTRODUCTION

This manual provides instructions for the DART C16B 16 oz Clear OPS Plastic Bowls. These bowls are designed for a variety of food service applications, offering clear visibility and reliable performance. Each case contains 504 bowls, suitable for deli, bakery, produce, and specialty items.

PRODUCT FEATURES

- **Material:** Made from Clear Polystyrene (OPS), designated as #6 plastic.
- **Design:** Features a unique crystal-cut design for an enhanced appearance.
- **Capacity:** 16 fluid ounces.
- **Seal:** Designed with a leak-resistant perimeter seal when used with compatible lids (lids sold separately).
- **Versatility:** Ideal for various food items including salads, desserts, fruits, and other prepared foods.

SETUP AND PREPARATION

1. **Unpacking:** Carefully open the shipping carton. The bowls are typically stacked and wrapped for protection.

2. **Inspection:** Before use, visually inspect bowls for any damage or defects. Discard any damaged bowls.
3. **Storage:** Store unused bowls in their original packaging in a clean, dry area away from direct sunlight and extreme temperatures to maintain their integrity.

OPERATING AND USAGE

These bowls are designed for single-use food service applications. Follow these guidelines for optimal use:

- **Filling:** Fill the bowl with desired food items. Ensure contents do not exceed the rim to allow for proper lid application.
- **Lid Application:** If using a compatible lid (sold separately), align the lid with the bowl's rim and press firmly around the edge until a secure, leak-resistant seal is achieved.
- **Temperature Suitability:** OPS plastic is generally suitable for cold and ambient temperature foods. Avoid using with hot liquids or in microwave ovens, as this material is not designed for high heat.
- **Transportation:** When transporting filled bowls, ensure they are kept upright and stable to prevent spills, especially if not fully sealed with a lid.

MAINTENANCE AND DISPOSAL

- **Cleaning:** These bowls are designed for single use and are not intended for washing or reuse.
- **Disposal:** Dispose of used bowls according to local recycling guidelines for #6 Polystyrene plastic. If recycling is not available, dispose of in general waste.

TROUBLESHOOTING AND CONSIDERATIONS

- **Lid Fit Issues:** Ensure you are using DART lids specifically designed for the C16B bowl or compatible DART PresentaBowls lids. Two lids are designed to fit all seven sizes of PresentaBowls, reducing confusion.
- **Leakage:** Verify that the lid is securely fastened around the entire rim of the bowl. Overfilling can also lead to leakage.

- **Cracking/Breakage:** While durable, OPS plastic can crack under excessive pressure or impact, especially in very cold conditions. Handle with care.
- **Food Compatibility:** Avoid using these OPS bowls for extremely hot foods or in microwave ovens. For freezing applications, PET Present Bowls are recommended (down to -22°F).

SPECIFICATIONS

Model Number	C16B
Brand	DART
Material	OPS Plastic (Polystyrene #6)
Color	Clear
Capacity	16 oz
Rim Diameter	5.3 inches
Height	2.6 inches
