MAINTENANCE

To ensure the longevity and cleanliness of your LEGO set, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the bricks. For deeper cleaning, wash LEGO bricks by hand using lukewarm water (not exceeding 40°C or 104°F) and a mild detergent. Rinse thoroughly and air dry. Avoid using hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store LEGO bricks in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration and warping.
- **Handling:** Handle the assembled models with care to avoid accidental disassembly.

TROUBLESHOOTING

If you encounter any issues during assembly or play, consider the following:

- **Missing Pieces:** In rare cases, a new LEGO set may have a missing piece. Please contact LEGO Customer Service directly for assistance.
- **Loose Connections:** Ensure all bricks are pressed firmly together. Sometimes, a slight adjustment can improve stability.
- **Difficulty Following Instructions:** Double-check the instruction manual for the correct orientation and placement of bricks. If needed, disassemble the problematic section and rebuild carefully.
