Preethi WG908

Preethi Iconic Table Top Wet Grinder WG908 User Manual

Model: WG908 | Brand: Preethi

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and care of your Preethi Iconic Table Top Wet Grinder. Please read these instructions thoroughly before using the appliance and retain them for future reference.

2. SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before use.
- Do not immerse the motor base in water or other liquids.
- Ensure the appliance is unplugged from the power outlet before assembling, disassembling, or cleaning.
- Keep hands and utensils away from moving parts during operation to prevent injury.
- Do not operate the grinder with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Use only attachments recommended or sold by the manufacturer.
- This appliance is for household use only. Do not use outdoors.
- Supervise children closely when the appliance is in use.
- Place the grinder on a stable, flat, and dry surface.

3. PRODUCT OVERVIEW AND COMPONENTS

The Preethi Iconic Table Top Wet Grinder is designed for efficient grinding of various ingredients. It features a compact

vertical design and bi-directional grinding technology.

Figure 1: Preethi Iconic Table Top Wet Grinder (Pink)

Key Components:

- **Motor Base:** Houses the 150 Watt high torque induction motor.
- **Grinding Drum:** Stainless steel drum with 2 L capacity.
- **Grinding Stones:** Natural grooved black stones for effective grinding.
- **Wiper:** Pyramid-shaped wiper to direct ingredients to the grinding zone.
- **Lid:** Transparent lid to cover the drum during operation.
- **Drum Handle:** Strong grip handle for easy lifting and pouring.

4. SETUP AND ASSEMBLY

Before first use, ensure all packaging materials are removed and the components are clean.

1. **Unpack:** Carefully remove the grinder and all accessories from the packaging.
2. **Clean:** Wash the grinding drum, stones, and lid with mild soap and water. Rinse thoroughly and dry.
3. **Place the Drum:** Position the stainless steel grinding drum securely onto the motor base.
4. **Insert Grinding Stones:** Place the grinding stone assembly into the drum, ensuring it is properly seated on the central shaft.
5. **Secure the Lid:** Place the transparent lid on top of the drum.
6. **Power Connection:** Plug the power cord into a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

Follow these steps for effective grinding:

1. **Prepare Ingredients:** Soak and prepare your ingredients (e.g., rice, lentils) as required for your recipe.
2. **Add Ingredients:** Place the prepared ingredients into the grinding drum. Do not overload the drum beyond its 2 L capacity.
3. **Add Water:** Gradually add water as needed during the grinding process.
4. **Start Grinding:** Switch on the grinder. The bi-directional grinding technology will operate, rotating both clockwise and anti-clockwise to ensure uniform grinding.
5. **Monitor Grinding:** Observe the grinding process through the transparent lid. The pyramid-shaped wiper will assist in directing ingredients towards the stones for consistent results.
6. **Check Consistency:** Grind until the desired consistency is achieved. The cool touch technology helps maintain a low temperature, preserving nutrient content.
7. **Stop Grinding:** Once grinding is complete, switch off the grinder and unplug it from the power outlet.
8. **Remove Batter:** Carefully remove the lid, then lift the grinding stone assembly. Use a spatula to scrape off any batter from the stones and drum.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance ensure the longevity and hygiene of your wet grinder.

1. **Unplug:** Always unplug the appliance before cleaning.
2. **Disassemble:** Remove the lid, grinding stone assembly, and drum from the motor base.
3. **Wash Components:** Wash the drum, stones, and lid with warm water and mild dish soap. Use a brush to clean any residue from the grinding stones and the pyramid wiper. Pay attention to any small holes or crevices to prevent accumulation of food particles.
4. **Clean Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water.
5. **Dry Thoroughly:** Ensure all components are completely dry before reassembling or storing.
6. **Storage:** Store the grinder in a clean, dry place.

7. TROUBLESHOOTING

If you encounter issues with your grinder, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Grinder does not start	No power supply; Loose plug connection; Overload protection activated.	Check power outlet; Ensure plug is firmly inserted; Reduce load and restart after a few minutes.

Problem	Possible Cause	Solution
Grinding is slow or inefficient	Insufficient water; Overloaded drum; Worn grinding stones.	Add more water gradually; Reduce quantity of ingredients; Contact service for stone replacement if necessary.
Unusual noise during operation	Improper assembly of stones; Foreign object in drum; Motor issue.	Reassemble stones correctly; Check for and remove any foreign objects; If noise persists, contact customer service.
Batter is not smooth	Insufficient grinding time; Not enough water; Ingredients not properly soaked.	Increase grinding time; Add water as needed; Ensure ingredients are soaked for the recommended duration.

If the problem persists after attempting these solutions, please contact Preethi customer support.
