MAINTENANCE

To ensure the longevity and appearance of your LEGO Millennium Falcon, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft brush or a can of compressed air. For deeper cleaning, gently wipe surfaces with a damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Storage:** If disassembling for storage, keep all pieces organized in sealed containers to prevent loss and damage. Store in a cool, dry place away from direct sunlight to prevent color fading.
- **Handling:** When moving the model, always support it from the bottom and handle it carefully to avoid accidental detachment of sections.

TROUBLESHOOTING

Should you encounter any issues during assembly or with the completed model, consider the following:

- **Missing Pieces:** Double-check all packaging and sorting trays. If a piece is genuinely missing, contact LEGO Customer Service for replacement parts.
- **Incorrect Assembly:** Carefully review the instruction manual for the specific step causing difficulty. LEGO instructions are highly detailed; a small oversight can lead to issues later in the build. Disassemble and re-build the problematic section if necessary.
- **Stability Issues:** Ensure all connections are firmly pressed together. The model is designed to be sturdy, but loose connections can affect overall stability.
