

Novatel Wireless NOV6620USB

Novatel Wireless NOV6620USB Micro USB Charge and Sync Cable User Manual

1. INTRODUCTION

This manual provides instructions for the proper use and care of your Novatel Wireless NOV6620USB Micro USB Charge and Sync Cable. This cable is designed for connecting devices with a Micro USB port to a USB port for charging and data synchronization. Please read this manual thoroughly before using the product.

2. PRODUCT OVERVIEW

The Novatel Wireless NOV6620USB cable features a standard USB Type-A connector on one end and a Micro USB Type-B connector on the other. It is approximately 3.3 feet (1 meter) in length and is black in color.

- **USB Type-A Connector:** Connects to a computer's USB port or a USB wall charger.
- **Micro USB Type-B Connector:** Connects to compatible devices such as smartphones, tablets, or other portable electronics.

3. SETUP AND CONNECTION

1. For Charging:

- Insert the USB Type-A end of the cable into a compatible USB wall adapter or a powered USB port on a computer.
- Insert the Micro USB Type-B end into the charging port of your device.
- Ensure the connection is secure. Your device should indicate that it is charging.

2. For Data Synchronization:

- Insert the USB Type-A end of the cable into an available USB port on your computer.
- Insert the Micro USB Type-B end into the port of your device.
- Your computer should recognize the connected device. Follow your device's instructions for data transfer or synchronization.

4. OPERATING INSTRUCTIONS

The Novatel Wireless NOV6620USB cable operates passively, facilitating the connection between two devices. No specific software or drivers are required for the cable itself, though your connected devices may require their own drivers for full functionality.

- Always ensure both connectors are fully inserted into their respective ports.
- Avoid bending or twisting the cable excessively, especially near the connectors, to prevent internal damage.
- Disconnect the cable by pulling on the connector housing, not the cable itself.

5. MAINTENANCE AND CARE

Proper maintenance extends the life of your cable.

- **Cleaning:** Use a soft, dry cloth to wipe the cable and connectors. Do not use liquid cleaners or solvents.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable.
- **Handling:** Do not expose the cable to excessive force, sharp objects, or liquids.

6. TROUBLESHOOTING

- **Device not charging/ syncing:**
 - Ensure both ends of the cable are securely connected.
 - Try connecting the cable to a different USB port or power adapter.
 - Test the cable with a different compatible device, if available, to determine if the issue is with the cable or the device.
 - Ensure your device's charging port is clean and free of debris.
- **Slow charging:**
 - Ensure the power adapter or USB port provides sufficient current for your device.
 - Avoid using the device heavily while charging.

7. SPECIFICATIONS

Model:	NOV6620USB
Brand:	Novatel Wireless
Connector Type:	USB Type-A to Micro USB Type-B
Cable Length:	3.3 feet (approximately 1 meter)
Color:	Black
