6. MAINTENANCE

- **Cleaning:** Wipe the metal frame and shelves with a damp cloth as needed. For the clear cover, use a mild soap solution and a soft cloth, then wipe dry.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight and secure.
- **Dust Protection:** Keep the zipper on the cover closed when not accessing garments to protect them from dust and environmental factors.

7. TROUBLESHOOTING

If you encounter any issues with your wardrobe, consider the following common solutions:

- **Wobbly Frame:** Ensure all plastic sleeves are correctly positioned and fully engaged on the metal poles. Double-check that all frame rods are securely inserted into their connectors.
- **Cover Not Fitting:** Verify that the frame is assembled according to the instructions and that the cover is oriented correctly. Ensure all zippers are fully open before attempting to place the cover over the frame.
- **Wheels Not Locking:** Check that the locking mechanism on the wheels is fully engaged. If a wheel is damaged, contact customer support for a replacement.

- **Long Garments Dragging:** Adjust the height of the lower shelves or consider hanging longer items on one side of the rod if space allows.
