Casio XJ-V10X

Casio XJ-V10X DLP Hybrid Light Source Portable Projector User Manual

Model: XJ-V10X | Brand: Casio

PRODUCT OVERVIEW

The Casio XJ-V10X is a high-performance DLP Hybrid Light Source Portable Projector designed for clear and brilliant color reproduction. Featuring a long-lasting LED light source, it is suitable for various presentation environments, from home cinema to office use. Its compact design and multiple connectivity options make it a versatile choice.

SETUP GUIDE

1. **Unpacking:** Carefully remove the projector and all accessories from the packaging. Ensure all components listed in the 'What's in the Box' section are present.

2. **Placement:** Place the projector on a stable, flat surface. Ensure adequate ventilation around the unit.

3. **Power Connection:** Connect the power cable to the projector's power input port (located at the bottom left of the rear panel) and then to a suitable power outlet.

4. **Input Source Connection:**

    - For digital video and audio, connect an HDMI cable from your source device to the projector's HDMI port.

    - For analog video, connect a VGA cable from your computer to the projector's 'COMPUTER' port.

    - For audio input, use the 'AUDIO IN' 3.5mm jack.

    - A 'SERIAL' port is available for control purposes.

5. **Adjusting Height:** Utilize the adjustable leg/ledge at the front of the projector to tilt the unit and achieve the desired projection angle. Press the "PUSH" button to release and adjust the leg.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the **POWER/STANDBY** button on the top panel to turn the projector on or off. The projector features a Direct ON/OFF function, eliminating warm-up and cool-down phases.

2. **Input Selection:** Press the **INPUT** button on the top panel to cycle through available input sources (HDMI, Computer/VGA).

3. **Focus and Zoom Adjustment:** Use the **FOCUS** and **ZOOM** levers located near the lens on the top panel to sharpen the image and adjust its size on the screen.

4. **Image Adjustment:** Adjust the projector's position and the screen's distance to achieve the desired image size and clarity.

MAINTENANCE

To ensure optimal performance and longevity of your Casio XJ-V10X projector, regular maintenance is recommended:

- **Cleaning the Lens:** Gently wipe the projector lens with a soft, lint-free cloth, such as the included Projector Supercenter microfiber cloth. Avoid using abrasive cleaners.

- **Cleaning the Exterior:** Wipe the exterior of the projector with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by a dry cloth.

- **Ventilation:** Ensure that the ventilation grilles are not blocked to prevent overheating. Periodically check for dust accumulation and gently clean if necessary.

- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Casio XJ-V10X projector, try the following basic troubleshooting steps:

- **No Power:**
    - Check if the power cable is securely connected to both the projector and the power outlet.
    - Verify that the power outlet is functional.
    - Ensure the **POWER/STANDBY** button has been pressed.

- **No Image:**
    - Confirm that the input cable (HDMI, VGA) is securely connected to both the projector and the source device.
    - Press the **INPUT** button to select the correct input source.
    - Check the source device (computer, media player) to ensure it is powered on and outputting a signal.

- **Blurry Image:**
    - Adjust the **FOCUS** lever until the image is sharp.
    - Ensure the projector is at an appropriate distance from the projection surface.

- **No Audio:**

- If using HDMI, ensure the source device's audio output is enabled.
- If using the 'AUDIO IN' jack, ensure the cable is connected correctly and the source device's volume is up.
- Check the projector's volume settings.

SPECIFICATIONS

Feature	Detail
Model Number	XJ-V10X
