Ultra Pro E-85266

Ultra Pro 35pt UV Rookie One-Touch Magnetic Card Holder

Model: E-85266

Introduction

The Ultra Pro ONE-TOUCH holders are premium storage cases designed for collectible trading cards, including rookie, relic, patch, and memorabilia cards. These holders feature a two-piece design with slide-in hinges and a magnetic closure, eliminating the need for tools. Constructed from non-PVC, ultra-clear materials with UV-blocking additives, they provide acid-free protection against harmful UV rays, preserving the condition of your valuable cards. The design also incorporates diamond corners to prevent damage to card corners during storage and display.

Setup and Card Insertion

Follow these steps to securely place your trading card into the Ultra Pro ONE-TOUCH holder:

1. **Open the Holder:** Gently separate the two clear acrylic pieces of the ONE-TOUCH holder. The holder is designed with slide-in hinges at the bottom and a magnetic closure at the top. Apply slight pressure to the top edges to disengage the magnet and carefully slide the top piece upwards.
2. **Prepare Your Card:** Ensure your trading card is clean and free of dust or debris. The holder is designed for standard 2.5 x 3.5 inch cards with a thickness of 35pt.
3. **Insert the Card:** Carefully align your card with the recessed area within one half of the holder. The holder features diamond corners to protect the card's edges during insertion and while housed. Ensure the card sits flat and is centered within the recess.
4. **Close the Holder:** Align the top piece of the holder with the bottom piece, ensuring the slide-in hinges engage correctly. Gently push the top piece down until the magnetic closure snaps securely into place. You should feel a distinct click, indicating the holder is sealed.

Your card is now protected and ready for display.

Operating and Display

The Ultra Pro ONE-TOUCH holder is designed for both protection and display. Once your card is securely enclosed, the ultra-clear material ensures maximum visibility, making it ideal for showcasing your collection. The UV-blocking additives help prevent fading from light exposure, allowing you to display your cards with confidence. These holders can be placed on shelves, in display cases, or used with compatible stands (not included) to highlight your prized possessions.

Care and Maintenance

To maintain the clarity and protective qualities of your Ultra Pro ONE-TOUCH holder, follow these guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the exterior of the holder. For smudges or fingerprints, a small amount of plastic cleaner or a damp cloth with water can be used, followed by drying with a clean, soft cloth. Avoid abrasive cleaners or solvents, as these can scratch or damage the acrylic.
- **Storage:** Store holders in a cool, dry place away from direct sunlight or extreme temperature fluctuations. While the holder offers UV protection, prolonged exposure to harsh conditions can still impact the card over time.
- **Handling:** Always handle the holder by its edges to avoid leaving fingerprints on the clear viewing area.

Troubleshooting

The Ultra Pro ONE-TOUCH Magnetic Holder is a simple, durable product. Most issues can be resolved by ensuring the card is correctly seated and the magnetic closure is fully engaged. If you experience difficulty opening or closing the holder, ensure no foreign objects are obstructing the hinges or magnetic points. For any persistent issues or concerns about the product's integrity, please refer to the support section.

Specifications

Feature	Detail
Brand	Ultra Pro
Model Number	E-85266
Product Dimensions	6.26 x 3.27 x 0.39 inches
