**Plant Part(s):** Flower  
**Extraction Method:** Steam-distilled  
**Aromatic Description:** Floral, dry, sweet

## Key Benefits:

- Provides an uplifting aroma.
- Helps balance moisture levels in the skin.
- Reduces the appearance of skin imperfections.
- Promotes an even skin tone and healthy-looking complexion.

## Fun Fact: *Queen of Essential Oils*

Rose is one of the most precious essential oils because of its universally appealing scent and the extensive number of petals required to make it: 10,000 blossoms for 5 mL!

**Sourcing Location:**  
**Bulgaria**

## Impact Fact:

Bulgaria is the perfect place to harvest roses because of its long growing history and mild winters, sandy soil, and heavy spring rain. Rose cuttings are planted in autumn and picked by hand in mid to late spring. The flowers are distilled the same day they're picked to capture a higher volume of essential oil from the delicate petals
