## 3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. A complete list of parts can be found in the packaging. Typical components include:

- Base plate(s)
- Sisal scratching posts (various lengths)
- Platforms and levels
- Hammock
- Cat house/condo
- Removable cushions
- Sisal rope toy
- Assembly hardware (screws, bolts, washers, Allen key)

## 4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your cat tree. It is recommended to have two people for easier assembly, especially for larger components.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out and compare them with the parts list provided in your box to ensure everything is present.
2. **Attach Base Posts:** Secure the first set of sisal posts to the main base plate using the provided screws and Allen key. Ensure they are tightened firmly for stability.
3. **Add First Level Platform:** Place the first platform onto the attached posts and secure it with screws.
4. **Assemble Cat House:** Construct the cat house according to the diagram in your packaging. Insert the soft, removable cushion into the cat house. Attach the assembled cat house to the appropriate platform or posts.
5. **Continue Building Upwards:** Attach subsequent sisal posts and platforms, working your way up. Ensure each connection is secure.
6. **Install Hammock:** Attach the rotatable hammock to its designated sisal post. Ensure it is securely fastened but can still rotate.
7. **Place Top Sleeping Area:** Secure the large top sleeping platform to the uppermost posts. Insert the extra-large, soft, removable cushion into this area.
8. **Attach Rope Toy:** Fasten the sisal rope toy to one of the platforms or posts as desired.
9. **Final Check:** Once fully assembled, gently shake the cat tree to check for any wobbling. Tighten any loose connections.

## 5. OPERATING INSTRUCTIONS

---

The RHRQuality Kilimanjaro Deluxe Cat Tree is designed for your cat's comfort, play, and exercise. Encourage your cat to use the tree by:

- Placing it in a central location where your cat enjoys spending time.
- Using catnip or treats to attract your cat to the various levels and sleeping areas.
- Playing with your cat around the tree to encourage climbing and interaction with the sisal rope.
- The sisal posts are intended for scratching, helping to maintain your cat's claws and protect your furniture.

## 6. MAINTENANCE

---

Regular maintenance will extend the life of your cat tree and ensure a hygienic environment for your pet.

- **Cleaning Cushions:** The removable cushions can be spot cleaned with a mild detergent. Refer to the care label on the cushions for specific washing instructions. **Note:** The product specifications state 'Do not wash' for general care, so avoid machine washing the entire tree structure.

- **Cleaning Sisal Posts:** Use a vacuum cleaner with a brush attachment to remove loose fur and debris from the sisal posts. For deeper cleaning, a damp cloth can be used, but avoid excessive moisture.
- **General Cleaning:** Vacuum the plush surfaces regularly to remove fur and dust. Wipe down any soiled areas with a damp cloth and mild pet-safe cleaner.
- **Checking Stability:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain the tree's stability.

## 7. TROUBLESHOOTING

---

- **Wobbling Cat Tree:** If the cat tree feels unstable, check all assembly points. Ensure all screws are fully tightened. Make sure the tree is placed on a flat, level surface.
- **Cat Not Using the Tree:** Cats can be particular. Try placing favorite toys, treats, or catnip on different levels to encourage exploration. Position the tree near a window or a favorite resting spot.
- **Worn Sisal Posts:** Sisal posts are designed to be scratched and will eventually show wear. Replacement sisal posts may be available from the manufacturer or authorized retailers.
