Itatiaia Rose 4-Piece White Kitchen Set

Instruction Manual

1. INTRODUCTION

Welcome to your new Itatiaia Rose 4-Piece White Kitchen Set. This manual contains important information regarding the proper use, care, and maintenance of your kitchen furniture. Please read it thoroughly to ensure optimal performance and longevity of your product.

2. PRODUCT OVERVIEW

The Itatiaia Rose 4-Piece White Kitchen Set is a compact steel kitchen solution designed for modern homes. It features a durable steel body and doors with electrostatic powder coating, PS handles, and telescopic drawer slides. The set includes a kitchen unit and a counter, providing ample storage and a functional workspace.

3. SETUP

The Itatiaia Rose 4-Piece White Kitchen Set is delivered pre-assembled. No complex assembly is required. Upon delivery, carefully unpack the components and place them in your desired kitchen location. Ensure the floor is level to prevent instability and ensure proper alignment of the units.

4. OPERATING INSTRUCTIONS

- **Cabinet Doors:** Open and close cabinet doors gently to prevent wear on hinges and ensure smooth operation.
- **Drawers:** The drawer features telescopic slides for smooth operation. Avoid overloading the drawer to maintain functionality and prevent damage to the slides.
- **Shelves:** The shelves are designed to hold up to 15 kg (approximately 33 lbs) each. Distribute weight evenly across the shelves and avoid exceeding the maximum load capacity to prevent bowing or collapse.

5. MAINTENANCE AND CARE

- **Cleaning:** For daily cleaning, wipe all surfaces with a soft, damp cloth. Use a mild, non-abrasive soap solution if necessary, then dry immediately with a clean, dry cloth to prevent water spots or streaks.
- **Avoid:** Do not use abrasive cleaners, harsh chemicals, solvents, or scouring pads, as these can damage the electrostatic powder coating and the overall finish of the furniture.
- **Spills:** Clean any spills immediately to prevent staining or damage to the surface, especially on the countertop.
- **Heat:** Avoid placing hot items directly on the countertop surface. Always use heat-resistant mats or trivets to protect the surface from heat damage.

6. TROUBLESHOOTING

- **Loose Handles:** If any handles become loose, gently tighten the screws from the inside of the cabinet or drawer. Do not overtighten, as this can strip the screws or damage the material.
- **Stiff Drawers/Doors:** If drawers or doors become stiff or difficult to operate, first check for any obstructions. Ensure the telescopic slides are clean and free of debris. Avoid applying excessive force.
- **Minor Scratches:** For minor surface scratches on the steel body, consult a professional or use a touch-up kit specifically designed for electrostatic powder-coated steel.
