MAINTENANCE

To maintain the appearance and longevity of your Sauder HomePlus Kitchen Storage Pantry Cabinet, follow these simple care instructions:

- Wipe surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- Ensure the cabinet is placed on a level surface to prevent stress on joints and doors.
- Periodically check and tighten any loose hardware to maintain structural integrity.

TROUBLESHOOTING

While the Sauder HomePlus cabinet is designed for durability, minor issues may arise. Here are some common concerns and general advice:

- **Uneven Doors/Alignment:** If doors appear misaligned after assembly, check that the cabinet is on a level

surface. Adjust the base levelers as needed. The self-closing adjustable hinges can also be fine-tuned to correct door alignment. Refer to the installation manual for detailed hinge adjustment instructions.

- **Minor Surface Blemishes:** Small chips or scratches may occur during shipping or assembly. These can often be touched up with furniture repair pens or appropriate wood fillers matching the Soft White finish.
- **Stability Concerns:** Ensure the cabinet is placed on a firm, level surface. Utilize the adjustable base levelers to achieve maximum stability. For added safety, especially in homes with children or pets, consider securing the cabinet to a wall using anti-tip hardware (often included or available separately).

For persistent issues or specific part replacements, please contact Sauder customer support.
