## Zeadio B076D41GVK

# Zeadio Handheld Video Stabilizer Grip with Triple Cold Shoe Mount - Instruction Manual

Model: B076D41GVK

## INTRODUCTION

---

The Zeadio Handheld Video Stabilizer Grip is designed to enhance the stability of your video recordings, providing smoother and more professional-looking footage. Its ergonomic design and versatile mounting options make it suitable for a wide range of cameras, including DSLRs, camcorders, action cameras, and smartphones. This manual provides detailed instructions for setup, operation, and maintenance of your stabilizer.

Image 1.1: The Zeadio Handheld Video Stabilizer Grip in use, demonstrating its versatility for dynamic video capture.

## KEY FEATURES

- **Enhanced Stability:** Reduces camera shake for smoother video recording, ideal for action shots and dynamic movements.
- **Low-Angle Filming:** Facilitates capturing stable footage from low perspectives.
- **Wide Compatibility:** Features a standard 1/4-20 thread interface, compatible with most cameras, camcorders, and smartphones.
- **Comfortable Grip:** Cushioned NBR padded handle ensures comfortable use during extended filming sessions.
- **Triple Cold Shoe Mount:** Allows simultaneous attachment of multiple accessories such as microphones, LED lights, or external monitors.

## PACKAGE CONTENTS

Please verify that all items are present in your package:

- Zeadio Handheld Video Stabilizer Grip
- Smartphone Holder
- GoPro Attachment
- 360° Ball Head Mount (integrated with smartphone holder)

## SETUP AND ASSEMBLY

### 1. Attaching Your Camera

1. Locate the 1/4-20 screw on the base plate of the stabilizer.
2. Align the camera's tripod mount with the screw.
3. Securely tighten the screw into your camera's tripod mount. Ensure the camera is firmly attached and does not wobble.

Image 2.1: A camera attached to the stabilizer, illustrating the mounting point.

## 2. Attaching the Smartphone Holder

1. The smartphone holder typically comes with a 360° ball head mount.
2. Attach the ball head mount to one of the cold shoe slots on the top handle of the stabilizer.
3. Tighten the locking knob to secure the ball head mount.
4. Insert your smartphone into the holder. The holder allows for both vertical and horizontal phone orientation.

## 3. Attaching Accessories (Microphones, Lights, etc.)

1. The stabilizer features three cold shoe mounts on the top handle.
2. Slide your cold shoe compatible accessories (e.g., microphone, LED light) into the available slots.

3. Ensure accessories are securely fastened to prevent accidental detachment during use.

 **Maximum load: 4 kg / 8.8 lb**

*Image 2.2: Stabilizer with multiple accessories attached, showcasing its expandability.*

## OPERATING INSTRUCTIONS

### Handheld Operation

- Grasp the padded handle firmly.
- Maintain a steady grip and move smoothly to achieve stable footage.
- The C-shaped design allows for comfortable low-angle shots by simply lowering the grip.

### Tripod Mounting

- The base of the stabilizer features a 1/4-20 threaded hole for tripod mounting.
- Attach the stabilizer to a compatible tripod, monopod, slider, or dolly for static shots or controlled movements.

- Ensure the connection is secure before use.

**Connect to Tripod, Slider or Dolly to take Superior Quality Videos**

*Image 3.1: The stabilizer mounted on a tripod for stable, stationary shots.*

## MAINTENANCE

- Clean the stabilizer with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- Regularly check all screws and connections to ensure they are tight.
- Store the stabilizer in a dry, cool place away from direct sunlight and extreme temperatures.
- Avoid dropping the unit or subjecting it to strong impacts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Camera/Smartphone is not stable on the grip.	Mounting screw is loose or not fully engaged.	Ensure the 1/4-20 screw is securely tightened to the camera. For smartphones, ensure the holder clamps are firm.
Accessories are loose on cold shoe mounts.	Accessory not fully inserted or locking mechanism not engaged.	Push the accessory fully into the cold shoe slot and tighten any locking rings or screws on the accessory itself.
Difficulty achieving smooth movement.	Incorrect grip technique or excessive weight.	Practice smooth, controlled movements. Ensure total weight of equipment does not exceed the maximum load capacity.

## SPECIFICATIONS

---

- **Brand:** Zeadio
- **Model:** B076D41GVK
- **Color:** Black
- **Item Weight:** 344 Grams (12.1 oz)
- **Compatible Devices:** Camcorder, Camera, Cellphone (with 1/4-20 thread or smartphone holder)
- **Mounting Points:** 1/4-20 thread (base), Triple Cold Shoe Mounts (top handle)
- **Maximum Load:** 4 kg / 8.8 lb (as per image)
