UPBRIGHT GQ24-240100-AU

UpBright 24V AC/DC Adapter Instruction Manual

Compatible with VYBE Pro LV9 Percussive Massager

1. Introduction

This manual provides essential information for the safe and effective use of your UpBright 24V AC/DC Adapter. This adapter is designed to provide power and charge compatible devices, specifically the VYBE Pro LV9 Percussive Massager. Please read these instructions carefully before use and retain them for future reference.

2. Product Overview

The UpBright 24V AC/DC Adapter is a power supply unit designed for specific electronic devices. It converts standard AC wall power to the required DC voltage and current for your compatible device. It features built-in protection mechanisms to ensure safe operation.

- **Input Voltage:** 100-240VAC, 50/60Hz (Worldwide compatible)
- **Output Voltage:** 24VDC
- **Output Current:** 1.0A (1000mA)
- **Safety Features:** OVP (Over Voltage Protection), OCP (Over Current Protection), SCP (Short Circuit Protection)

3. Setup

Before connecting the adapter, ensure that your device, such as the VYBE Pro LV9 Percussive Massager, requires a 24V DC input with a current draw of 1.0A or less, and has a compatible barrel connector. Using an adapter with incorrect voltage or amperage can damage your device or the adapter itself.

1. **Verify Compatibility:** Confirm that your device's power input specifications match the adapter's output (24VDC, 1.0A).
2. **Connect to Device:** Insert the barrel connector of the adapter firmly into the power input port of your VYBE Pro LV9 Percussive Massager.
3. **Connect to Power Outlet:** Plug the adapter into a standard 100-240VAC wall outlet.

Image 2: Visual representation of the VYBE Pro massager, indicating compatibility. Note that the adapter itself is for US outlets, and international plug adapters (AU, EU, UK) may be required for use in other regions.

4. Operating Instructions

Once properly connected, the adapter will begin to supply power to your device or charge its internal battery. Refer to your device's instruction manual for specific charging indicators or operational procedures.

- Ensure the adapter is securely plugged into both the wall outlet and the device.
- The adapter is designed for continuous use, but it is recommended to unplug it when not in use for extended periods.
- Note that rechargeable batteries have a limited lifespan, typically 1 to 3 years. An old or faulty battery may not accept a charge, which is not an indication of an adapter malfunction.

5. Maintenance

To ensure the longevity and proper functioning of your UpBright AC/DC Adapter, follow these simple maintenance guidelines:

- Keep the adapter clean and dry. Avoid exposure to moisture, dust, and extreme temperatures.
- Do not attempt to open or repair the adapter. This will void the warranty and may pose a safety risk.
- Handle the cable gently. Avoid sharp bends, kinks, or placing heavy objects on the cable, which can cause internal damage.
- Unplug the adapter by grasping the plug, not the cable.

6. Troubleshooting

If your device is not receiving power or charging, consider the following:

- **No Power:** Ensure the adapter is securely plugged into a functional wall outlet and the device. Test the wall outlet with another appliance.
- **Device Not Charging:** Double-check that the adapter's output specifications (24VDC, 1.0A) precisely match your device's power input requirements. Incompatible voltage or current is a common cause of non-functionality.
- **Loose Connection:** Verify that the barrel connector is fully inserted into the device's power port and is not loose.

- **Battery Condition:** If your device uses a rechargeable battery, an aged or damaged battery may no longer accept a charge, regardless of the adapter's functionality.
- **Adapter Damage:** Inspect the adapter and cable for any visible signs of damage. If damaged, discontinue use immediately.

If issues persist after following these steps, please contact UpBright customer support.

7. Specifications

Feature	Specification
Model Number	GQ24-240100-AU
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	24VDC
Output Current	1.0A (1000mA)
Connector Type	Barrel Connector
Protection Features	OVP, OCP, SCP
Product Dimensions	3 x 3 x 1 inches (approximate)
Item Weight	3.52 ounces (approximate)

8. Warranty and Support

UpBright products are designed for reliability and performance. This adapter comes with the following warranty and support:

- **Refund Policy:** 30 Days Refund from the date of purchase.
- **Exchange Policy:** 24 Months Exchange for manufacturing defects.

For warranty claims, technical assistance, or any questions regarding your UpBright AC/DC Adapter, please contact UpBright customer support through your retailer or the official UpBright website.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
