ResMed H4i CPAP Dishwasher Safe Water Chamber Instruction Manual

INTRODUCTION

This manual provides essential instructions for the safe and effective use, maintenance, and troubleshooting of your ResMed H4i CPAP Dishwasher Safe Water Chamber. Please read this manual thoroughly before using the product to ensure proper function and longevity.

PRODUCT OVERVIEW

The ResMed H4i Water Chamber is a replacement component designed for the ResMed H4i heated humidifier, which is used in conjunction with CPAP therapy devices. This improved version is specifically engineered to be dishwasher safe, facilitating easier and more thorough cleaning compared to previous models.

Image: The ResMed H4i Dishwasher Safe Water Chamber, a clear plastic reservoir with a maximum fill line indicator.

SETUP

Follow these steps to correctly install your ResMed H4i Dishwasher Safe Water Chamber:

1. Ensure your CPAP device and H4i humidifier are turned off and unplugged from the power source.
2. Open the H4i humidifier unit according to its specific instructions.
3. Carefully remove the old water chamber, if present, and dispose of it properly.
4. Place the new ResMed H4i Dishwasher Safe Water Chamber into the humidifier unit, ensuring it is seated correctly and securely.
5. Fill the water chamber with distilled water up to the maximum fill line indicated on the chamber **Do not overfill.**
6. Close the humidifier unit securely.
7. Reconnect the humidifier to the CPAP device and power source.

Note: Always use distilled water to prevent mineral buildup and ensure optimal performance and longevity of the humidifier and water chamber.

OPERATION

Once the water chamber is correctly installed and filled, the H4i humidifier can be operated as per your CPAP device's instructions. The humidifier will heat the water in the chamber to provide humidified air during therapy.

- **Water Level:** Regularly check the water level in the chamber. Refill with distilled water as needed before each use.
- **Temperature Settings:** Adjust the humidifier's temperature settings on your CPAP device to your preferred comfort level. Refer to your CPAP device manual for specific instructions on adjusting humidity settings.

Important: Never operate the humidifier without water in the chamber.

MAINTENANCE AND CLEANING

Regular cleaning of the water chamber is crucial for hygiene and optimal performance.

Daily Cleaning

1. Disconnect the humidifier from the CPAP device and power source.
2. Open the humidifier and carefully remove the water chamber.
3. Discard any remaining water.
4. Separate the water chamber components if designed to open for cleaning.
5. Wash the chamber components with warm water and a mild detergent.
6. Rinse thoroughly with clean water.
7. Allow all parts to air dry completely out of direct sunlight before reassembly and reuse.

Weekly Cleaning (Dishwasher Safe)

1. Follow steps 1-4 from Daily Cleaning.
2. Place the separated water chamber components on the top rack of a dishwasher.
3. Use a mild dishwasher detergent.
4. Run a gentle cycle.
5. Allow all parts to air dry completely before reassembly and reuse.

Caution: Do not use bleach, alcohol, or cleaning solutions containing chlorine, abrasives, or strong aromatic solvents, as these can damage the chamber material.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions:

Issue	Possible Cause	Solution
No humidification	Water chamber empty	Fill chamber with distilled water up to the maximum line.
No humidification	Humidifier not properly connected or turned on	Ensure humidifier is correctly installed and powered on. Check CPAP device settings.

Issue	Possible Cause	Solution
Water leakage	Chamber not seated correctly	Remove and re-seat the water chamber firmly in the humidifier.
Water leakage	Chamber damaged or cracked	Inspect the chamber for damage. Replace if necessary.
Mineral buildup	Tap water used instead of distilled water	Always use distilled water. Clean the chamber thoroughly as per maintenance instructions.

If problems persist, consult your CPAP device manual or contact your equipment provider for further assistance.

SPECIFICATIONS

- **Product Name:** ResMed H4i Dishwasher Safe Water Chamber
- **Compatibility:** Designed for ResMed H4i Heated Humidifier
- **Material:** Dishwasher-safe plastic
- **Dimensions (Package):** Approximately 6.77 x 6.61 x 3.27 inches
- **Weight (Package):** Approximately 7.37 ounces
- **ASIN:** B076FDX6RH
- **Manufacturer:** ResMed

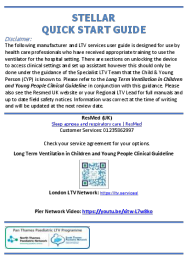

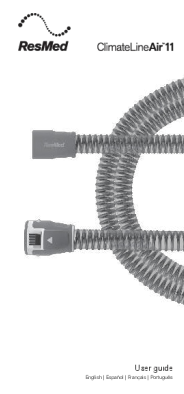

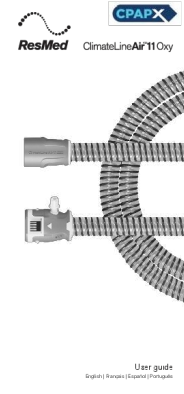

Note: Specifications are subject to change without notice.

WARRANTY AND SUPPORT

For warranty information regarding your ResMed H4i Dishwasher Safe Water Chamber, please refer to the documentation provided with your original ResMed H4i humidifier or contact ResMed customer support directly. For product support or inquiries, please visit the official ResMed website or contact your authorized ResMed dealer.
