# Lenovo Legion M200 RGB Gaming Mouse User Manual

Model: M200 (GX30P93886)

## 1. INTRODUCTION AND OVERVIEW

---

The Lenovo Legion M200 RGB Gaming Mouse (Model GX30P93886) is engineered for an enhanced gaming experience. It features a responsive 5-button design, adjustable DPI settings up to 2400, and a dynamic 7-color circulating RGB backlight. Designed for comfort and durability, this mouse includes an ambidextrous shape, textured side grips, and a robust braided USB cable.

# Precision and Style for Every Gamer

Designed to elevate your play with comfort and flair.

# Balanced Performance & Comfort

Enjoy smooth tracking and a design that fits every hand.

1. **4 DPI levels:** 1000 / 1300 / 1600 / 2400 for adaptable precision.
2. **Ambidextrous Shape:** Perfect for left or right-handed gamers.
3. **Textured Side Grips** for secure and comfortable handling.
4. **Optical Sensor** for accurate and responsive tracking.

## 2. SETUP

1. **Unpacking:** Carefully remove the Lenovo Legion M200 RGB Gaming Mouse from its packaging. Ensure all components are present.
2. **Connection:** Locate an available USB port on your computer. Plug the USB connector of the mouse firmly into the port.
3. **Driver Installation:** The mouse is designed for plug-and-play functionality. Your operating system (Windows 7, 8, 8.1, 10) will typically detect and configure the device automatically without requiring

additional driver installation.

## 3. OPERATING INSTRUCTIONS

---

### Basic Functions

- **Left Click Button:** Performs primary actions such as selecting items, opening files, or firing in games.
- **Right Click Button:** Activates secondary functions, often displaying context-sensitive menus.
- **Scroll Wheel:** Used for vertical scrolling through documents and web pages. It also functions as a clickable middle button for additional commands.
- **Side Buttons:** The two side buttons are typically used for forward/backward navigation in web browsers or can be assigned to specific in-game actions or shortcuts.

### DPI Adjustment

The Lenovo Legion M200 features a dedicated DPI switch button, located near the scroll wheel. Press this button to cycle through four preset DPI (Dots Per Inch) levels: 1000, 1300, 1600, and 2400. This allows for quick sensitivity adjustments to suit different tasks, game genres, or personal preferences.

### RGB Backlight

The mouse is equipped with a dynamic 7-color circulating RGB backlight. This feature automatically cycles through various colors, providing an aesthetic enhancement to your gaming setup. The backlight is active whenever the mouse is connected to a powered USB port.

## 4. MAINTENANCE

---

### Cleaning

1. **Disconnect:** Always disconnect the mouse from your computer before cleaning.
2. **Surface Cleaning:** Use a soft, dry cloth to gently wipe the surface of the mouse. For more persistent dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaning solution. Avoid using harsh chemicals or solvents.
3. **Sensor and Wheel:** Use a cotton swab or a can of compressed air to carefully clean around the optical sensor on the underside and the scroll wheel to remove dust and debris.

### Cable Care

To ensure the longevity of the braided USB cable, avoid sharp bends, kinks, or excessive pulling. Store the cable neatly when not in use to prevent damage.

## 5. TROUBLESHOOTING

---

- **Mouse Not Responding:**  
Ensure the USB cable is securely plugged into an active USB port on your computer. Try plugging the mouse into a different USB port. Restart your computer to refresh the connection.
- **DPI Not Changing:**  
Press the DPI switch button firmly. Confirm the mouse is connected and receiving power.
- **Backlight Not Working:**  
Verify that the mouse is properly connected to a powered USB port. The backlight should activate

automatically upon connection.

- **Erratic Cursor Movement:**

Clean the optical sensor on the underside of the mouse. Ensure you are using the mouse on a suitable, non-reflective surface; a mouse pad is highly recommended.

- **Buttons Not Functioning:**

Check if any software or game-specific settings are overriding the default button functions. Test the mouse on another computer to determine if the issue is with the mouse hardware or your computer's configuration.

## 6. SPECIFICATIONS

---

# SIZE

40mm  
(1.57 inches)

71 mm  
(2.8 inches)

123 mm  
(4.8 inches)

Cable Length: 1.8 m

Weight: 150g
