SETUP AND CONNECTION

Charging the Controller

Before first use, fully charge the controller. Connect the supplied USB cable to the controller's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will show the charging status and turn off when fully charged.

Connecting via Bluetooth (Smartphones, Tablets, PCs)

1. Ensure the controller is powered off.
2. Press and hold the **HOME** button along with the corresponding mode button for your device (e.g.**X + HOME** for Android, **Y + HOME** for iOS, **A + HOME** for PC X-Input mode). Refer to the controller's button labels for specific modes.
3. The indicator light will flash rapidly, indicating it's in pairing mode.
4. On your device, enable Bluetooth and search for available devices.

5. Select "PG-9076" from the list of found devices to pair.

6. Once paired, the indicator light on the controller will become solid.

Connecting via 2.4G Wireless (PCs, Smart TVs, PS3)

For devices that support 2.4G wireless connection, use the included 2.4G USB dongle (if applicable, not explicitly mentioned in product description but implied by "2.4G Version").

1. Plug the 2.4G USB dongle into an available USB port on your PC, Smart TV, or PS3.

2. Ensure the controller is powered off.

3. Press and hold the **HOME** button along with the 2.4G mode button (usually indicated by a specific icon or button combination).

4. The controller will automatically connect to the dongle. The indicator light will become solid once connected.

Note: Not all games or platforms may fully support all controller functions. Some games may require specific controller modes or mapping adjustments.

OPERATING INSTRUCTIONS

Basic Controls

- **Analog Sticks:** For precise 360-degree movement and camera control.
- **D-Pad:** For directional input, typically used in menu navigation or classic games.
- **Action Buttons (A, B, X, Y):** For in-game actions such as jumping, attacking, interacting.
- **Shoulder Buttons (L1, R1) & Triggers (L2, R2):** For various in-game functions like shooting, aiming, or special abilities.
- **START/SELECT:** For pausing games, accessing menus, or specific in-game commands.
