UPBRIGHT HumanWare Brailliant BI 32 USB Cable

UpBright Micro USB Charge Cable User Manual

Model: HumanWare Brailliant BI 32 USB Cable
Brand: UPBRIGHT

1. INTRODUCTION

This manual provides instructions for the proper use and care of your UpBright Micro USB Charge Cable. This cable is designed for charging and data transfer with compatible devices, including HumanWare Brailliant BI 32, BI40, and B80 Braille Displays.

The UpBright Micro USB Charge Cable is manufactured with high-quality copper material to ensure reliable performance.

2. PRODUCT OVERVIEW

Figure 1: The UpBright Micro USB Charge Cable, showing the standard USB-A connector on one end and the Micro USB connector on the other. The cable is coiled for storage.

THIS PRODUCT COMES WITH A UPBRIGHT®

LIMITED WARRANTY CERTIFICATE
+ UPBRIGHT® LIMITED WARRANTY

3. SETUP AND CONNECTION

To use your UpBright Micro USB Charge Cable, follow these steps:

1. **Identify Connectors:** Locate the standard USB-A connector (the larger, rectangular end) and the Micro USB connector (the smaller, trapezoidal end) on the cable.
2. **Connect to Power Source/Computer:** Insert the standard USB-A connector into a compatible USB port on a power adapter (e.g., wall charger, car charger) or a computer. Ensure the connector is inserted correctly, without forcing it.
3. **Connect to Device:** Insert the Micro USB connector into the Micro USB port on your HumanWare Brailliant BI 32, BI40, B80, or other compatible device. Ensure the connector is oriented correctly before insertion.
4. **Verify Connection:** Once both ends are connected, your device should indicate that it is charging or connected for data transfer, depending on the function initiated.

4. OPERATING INSTRUCTIONS

This cable facilitates two primary functions:

- **Charging:** When connected to a power source, the cable will deliver power to your compatible device, allowing it to charge its internal battery. Charging times may vary based on the device's battery capacity and the power output of the connected adapter.
- **Data Transfer:** When connected to a computer, the cable enables the transfer of data between your device and the computer. The specific data transfer capabilities (e.g., file synchronization, firmware updates) depend on the device and the software installed on your computer. Refer to your device's manual for detailed data transfer procedures.

Always ensure a secure connection at both ends for optimal performance.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your UpBright Micro USB Charge Cable, please observe the following guidelines:

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable sharply, as this can damage the internal wires.
- **Cleaning:** If the cable or connectors become dirty, gently wipe them with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable. Avoid pulling on the cable itself, as this can strain the connection points and lead to damage.
- **Protection:** Keep the cable away from pets and young children to prevent chewing or accidental damage.

6. TROUBLESHOOTING

If you encounter issues with your UpBright Micro USB Charge Cable, consider the following common solutions:

- **Device Not Charging:**
 - Ensure both ends of the cable are securely connected.
 - Try using a different USB port on your power adapter or computer.
 - Test the cable with another compatible device to determine if the issue is with the cable or the device being charged.
 - Verify that the power adapter or USB port is functioning correctly.
- **Data Transfer Issues:**
 - Confirm that your device is in data transfer mode (if applicable).
 - Ensure necessary drivers or software are installed on your computer for the connected device.
 - Try a different USB port on your computer.
- **Loose Connection:**

If the cable feels loose in the device or power source port, inspect the connectors for any debris or damage. Do not force the connection.

If problems persist after attempting these steps, please refer to the Warranty and Support section.

7. SPECIFICATIONS

Feature	Detail
Brand	UPBRIGHT
Model Number	HumanWare Brailliant BI 32 USB Cable
Connector Type	Micro USB, USB-A
Material	Copper
Product Dimensions (L x W x H)	0.05 x 2 x 1 inches
