WHAT'S IN THE BOX

Your FAO Schwarz Medieval Castle Building Blocks set includes the following components:

- 75 natural wood blocks in various shapes and sizes, including bridges, turrets, arches, and towers.

SETUP

No assembly is required for the blocks themselves. Simply unpack the blocks from their packaging. It is recommended to lay out all the blocks on a flat, stable surface to allow for easy access and visibility during construction. Ensure the play area is clear of obstructions to provide ample space for building.

OPERATING INSTRUCTIONS

The FAO Schwarz Medieval Castle Building Blocks are designed for open-ended creative play. There are no strict rules for building, encouraging children to explore their own designs and engineering concepts.

Building Concepts:

- **Foundation:** Begin by creating a stable base for your castle using larger, flatter blocks.

- **Walls and Towers:** Stack blocks to form walls and towers. Experiment with different block shapes to create varied architectural features.
- **Arches and Bridges:** Utilize the curved and bridge-shaped blocks to create entryways, connecting structures, or decorative elements.
- **Turrets and Roofs:** The pointed and angled blocks can be used to cap towers and create rooflines, adding detail to your castle.
- **Experimentation:** Encourage free play and experimentation. The blocks can be stacked, balanced, and arranged in countless ways to form unique structures.

MAINTENANCE

To ensure the longevity of your wooden building blocks, follow these maintenance guidelines:

- **Cleaning:** Wipe blocks with a clean, damp cloth. Do not submerge in water or use harsh cleaning agents, as this can damage the wood. Allow blocks to air dry completely before storing.
- **Storage:** Store blocks in a dry place away from direct sunlight or extreme temperatures to prevent warping or cracking.
- **Inspection:** Periodically inspect blocks for any signs of wear, splintering, or damage. Discontinue use if blocks become damaged to prevent injury.

TROUBLESHOOTING

While these wooden blocks are durable, occasional issues may arise.

Common Issues:

- **Cracked or Broken Block:** In the rare event a block cracks or breaks, it is recommended to remove the damaged block from play to prevent potential splinters or injury. Contact customer support for assistance.
- **Blocks Not Stacking Evenly:** Ensure the play surface is flat and stable. Slight variations in natural wood are normal and can be incorporated into creative designs.
