

Inter Link 20900202

Inter Link White Lacquered Single Bed with Pull-Out Bed

MODEL: 20900202

1. Introduction

Thank you for choosing the Inter Link White Lacquered Single Bed with Pull-Out Bed. This versatile furniture piece is designed to provide a comfortable sleeping solution and optimize space in guest rooms or children's rooms. It features a solid wood construction with a white lacquered finish and includes an integrated pull-out bed for an additional sleeping area. This manual provides essential information for assembly, usage, and maintenance to ensure the longevity and safe operation of your bed.

2. Safety Information

- Always follow the assembly instructions carefully. Incorrect assembly can lead to instability and potential injury.
- Ensure all screws and fittings are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to play on or around the bed without supervision, especially when the pull-out bed is extended.
- Place the bed on a flat, stable surface.
- The bed is designed for sleeping. Avoid standing or jumping on the bed.
- Keep small parts out of reach of children during assembly to prevent choking hazards.

3. Package Contents

Your Inter Link bed is delivered in one package and includes all necessary components for assembly. Please verify that all parts are present before beginning assembly.

- Bed frame components (headboard, footboard, side rails, pull-out bed frame)
- 2 x Slatted bed bases
- Assembly hardware (screws, dowels, etc.)
- Detailed and illustrated assembly instructions (separate document)

Note: Mattresses are NOT included with this product and must be purchased separately.

4. Assembly Instructions

Assembly of the Inter Link bed requires careful attention to detail. Please refer to the separate, detailed, and illustrated assembly instructions provided in your package for step-by-step guidance. Ensure you have adequate space and the necessary tools (e.g., screwdriver) before you begin.

- Unpack all components and lay them out on a clean, soft surface to prevent scratches.
- Identify all parts and hardware using the provided list in the assembly manual.
- Follow the numbered steps in the assembly manual precisely.
- Ensure all connections are firm but do not overtighten screws, which could damage the wood.
- When installing the slatted bed bases, ensure they are correctly positioned and secured.
- **Important Mattress Information:** The main bed accommodates a mattress of approximately 80 x 190 cm. The pull-out bed also requires a mattress of approximately 80 x 190 cm, but it must be thinner than the main mattress to allow the pull-out bed to slide underneath the main frame. Consult the separate assembly instructions for specific height recommendations for the pull-out bed mattress.

5. Usage Instructions

5.1 Main Bed Functionality

The main bed provides a comfortable sleeping surface for one person. It can also function as a daybed when placed against a wall and adorned with pillows, offering a versatile seating and lounging area during the day.

Image: The Inter Link single bed arranged as a daybed, featuring multiple pillows and bedding, suitable for a living space or child's room.

5.2 Pull-Out Bed Functionality

The integrated pull-out bed is located in the lower drawer on wheels. To use it:

1. Gently pull the handle on the front of the lower drawer to extend the pull-out bed. The wheels allow for smooth movement.
2. Ensure the pull-out bed is fully extended and stable before placing a mattress on it or allowing someone to sleep on it.
3. To store, remove the mattress (if necessary, depending on its thickness) and gently push the drawer back under the main bed until it is fully closed.

6. Maintenance

To keep your Inter Link bed in optimal condition, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the white lacquered finish. The varnish is water-resistant and easy to care for.
- **Inspections:** Periodically check all screws and fittings to ensure they remain tight. Re-tighten if any looseness is detected.
- **Wood Care:** The bed is made of solid wood (Pinus Taeda) with MDF elements. While the finish protects the wood, avoid prolonged exposure to direct sunlight or extreme temperature changes to prevent warping or discoloration. The natural wood grain may remain visible under the paint, which is a characteristic of the material.

7. Troubleshooting

- **Difficulty during assembly:** If you encounter any issues during assembly, refer to the detailed assembly instructions. If problems persist, contact Inter Link customer service for assistance.
- **Pull-out bed not sliding smoothly:** Check for any obstructions under the bed. Ensure the wheels are clean and free of debris. Verify that the pull-out bed frame is correctly assembled and aligned.
- **Mattress for pull-out bed does not fit:** The pull-out bed requires a mattress of approximately 80 x 190 cm, but it must be of a specific height to allow it to slide under the main bed. If your mattress is too thick, it will not fit. Please consult the original assembly instructions for the maximum recommended mattress height for the pull-out bed.

8. Specifications

Brand	Inter Link
Model Number	20900202
Color	White
Material	Solid Wood (Pinus Taeda), MDF
Assembled Dimensions (L x W x H)	199 cm x 87 cm x 66 cm
Sleeping Area Dimensions	80 cm x 190 cm (for both main and pull-out bed)
