SETUP

Follow these steps to set up your wireless charging pad:

1. Connect the Micro5pin USB cable to the charging port on the Spigen F301W pad.
2. Connect the other end of the USB cable to a compatible power adapter (not included). For fast charging, a QC 2.0/3.0 standard power adapter (10W or higher) is recommended.
3. Plug the power adapter into a wall outlet. The LED indicator on the charging pad will illuminate briefly, indicating it is ready for use.

OPERATING INSTRUCTIONS

To charge your Qi-enabled device:

1. Ensure the charging pad is connected to a power source.
2. Place your Qi-enabled smartphone or device directly onto the center of the charging pad.
3. The LED indicator on the charging pad will light up to confirm that charging has begun. Your device's

screen should also indicate that it is charging wirelessly.

4. For optimal charging, ensure your device is centered on the pad. Remove any metal plates or credit cards from your phone case before charging. Wireless charging is not recommended with wallet cases.

MAINTENANCE

To ensure the longevity and optimal performance of your charging pad:

- Keep the charging pad clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures, direct sunlight, or moisture.
- Do not disassemble or attempt to repair the device yourself. This will void the warranty.
- Store the charging pad in a cool, dry place when not in use.

TROUBLESHOOTING

If you encounter issues with your Spigen F301W, refer to the following table:

Problem	Solution

Problem	Solution
Device not charging	Ensure the charging pad is properly connected to a power source. Verify your device is Qi-enabled and correctly centered on the pad. Remove any metal objects or thick cases. Try a different power adapter (QC 2.0/3.0 recommended).
Slow charging	Use a QC 2.0/3.0 compatible power adapter (10W or higher). Ensure your device supports fast wireless charging. Some phone models (e.g., iPhones) charge at a standard rate.
LED indicator not lighting up	Check the power connection. Ensure the USB cable is securely plugged into both the pad and the power adapter. Try a different power outlet.
Device or charger getting hot	Some heat generation during wireless charging is normal. If it becomes excessively hot, remove the device immediately. Ensure proper ventilation and that no foreign objects are between the device and the pad.
