# MAC Studio Fix Fluid Foundation SPF15 NC30 User Manual

## 1. PRODUCT OVERVIEW

The MAC Studio Fix Fluid Foundation SPF15 is a modern liquid foundation designed to provide a natural matte finish with broad-spectrum SPF15 protection. This oil-free formula helps control oil and shine, offering buildable coverage suitable for various skin types. The specific shade covered in this manual is NC30, described as a Light Medium Golden tone.

## 2. APPLICATION INSTRUCTIONS

Follow these steps for optimal application of your MAC Studio Fix Fluid Foundation:

- 1. Prepare Skin:** Begin with clean, moisturized skin. For best results and extended wear, consider applying a primer suitable for your skin type.
- 2. Shake Well:** Before each use, gently shake the foundation bottle to ensure the formula is evenly mixed.
- 3. Dispense Product:** Unscrew the cap. Dispense a small amount of foundation onto the back of your hand, a makeup palette, or directly onto your application tool. *Note: A pump dispenser for this product is sold separately.*
- 4. Apply to Face:** Using a foundation brush, makeup sponge, or clean fingertips, apply the foundation to your face. Start from the center of your face and blend outwards towards your hairline and jawline.
- 5. Build Coverage:** The foundation offers buildable coverage. For a sheer look, use a small amount and blend thoroughly. For more coverage, apply additional thin layers to areas that require it, gently patting and blending.
- 6. Blend Seamlessly:** Ensure the foundation is blended seamlessly into your skin, avoiding harsh lines, especially

around the jawline and neck.

### 3. USAGE TIPS

- **Oil Control:** This foundation is formulated to be oil-free and helps control shine. For very oily skin, consider pairing it with an oil-controlling primer and setting powder.
- **Sun Protection:** The SPF15 provides broad-spectrum sun protection. However, for prolonged sun exposure, it is recommended to use a dedicated sunscreen underneath your foundation.
- **Setting:** To prolong wear and achieve a truly matte finish, lightly dust a translucent or matching setting powder over the foundation.
- **Removal:** At the end of the day, remove foundation thoroughly using a gentle makeup remover or cleanser to maintain healthy skin.

### 4. MAINTENANCE AND STORAGE

- **Storage:** Store the foundation in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cap Security:** Always ensure the cap is tightly closed after each use to prevent the product from drying out or becoming contaminated.
- **Shelf Life:** Refer to the Period After Opening (PAO) symbol on the product packaging, typically a small open jar icon with a number followed by 'M' (e.g., '24M' for 24 months), to determine the recommended shelf life after opening.

## 5. TROUBLESHOOTING

---

- **Color Appears Incorrect:** Foundation shades can look different under various lighting conditions. Always test the shade on your jawline in natural light before full application. If the shade still appears incorrect, consider trying a different MAC Studio Fix Fluid shade.
- **Uneven Application:** Ensure your skin is well-prepped and moisturized. Use a clean application tool and blend thoroughly. Applying in thin layers rather than one thick layer can also prevent patchiness.
- **Foundation Not Lasting:** For extended wear, use a primer before application and set with a powder or setting spray afterwards. Avoid touching your face excessively throughout the day.
- **Product Separation:** If you notice any separation in the product, shake the bottle vigorously before use. If separation persists or the product's texture or smell changes significantly, it may be expired or compromised.
