### ASUS CERBERUS MECH RGB Keyboard

# ASUS Cerberus Mech RGB Mechanical Wired Gaming Keyboard User Manual

## INTRODUCTION

This manual provides detailed instructions for the ASUS Cerberus Mech RGB Mechanical Wired Gaming Keyboard. Designed for gaming enthusiasts, this keyboard features durable mechanical switches, customizable RGB backlighting, and advanced gaming functionalities to enhance your experience. Please read this manual thoroughly before using the product.

## PACKAGE CONTENTS

Before proceeding with the setup, please verify that all items are present in the package:

- 1 x ASUS Cerberus Mech RGB Mechanical Wired Gaming Keyboard
- 1 x Quick Start Guide
- 4 x Extra Keycaps
- 1 x Keycap Puller

## SETUP

1. **Unpacking:** Carefully remove the keyboard and all accessories from the packaging.
2. **Connection:** Locate an available USB port on your computer. Insert the keyboard's USB connector into the USB port. The keyboard is plug-and-play and should be recognized automatically by your operating system (Windows).
3. **Placement:** Position the keyboard on a stable, flat surface at a comfortable distance from your monitor.

## OPERATING INSTRUCTIONS

### RGB Illumination

The ASUS Cerberus Mech RGB keyboard features customizable RGB backlighting with seven pre-set lighting effects. These effects can be cycled and adjusted directly from the keyboard using the Function (Fn) key in combination with specific keys. Refer to the Quick Start Guide for specific key combinations to change lighting modes and brightness.

Figure 3: Keyboard with active RGB backlighting.

## On-the-Fly Macro Recording

The keyboard supports on-the-fly macro recording, allowing you to record complex key sequences without needing software. Consult the Quick Start Guide for the specific key combination to initiate and save macro recordings.

## Gaming Profiles

You can store multiple key, lighting, and macro settings in dedicated gaming profiles. This allows for quick switching between different configurations optimized for various games or applications. Refer to the Quick Start Guide for instructions on creating and switching between profiles.

## Windows Key Lock

To prevent accidental presses of the Windows key during gameplay, the keyboard includes a Windows key lock feature. This function can be toggled on or off using a specific key combination, typically involving the Function (Fn) key. Refer to the Quick Start Guide for the exact key combination.

## Multimedia Control Keys

The keyboard is equipped with multimedia control keys, often integrated into the Function (Fn) row, allowing

for quick access to volume control, media playback, and other functions. These keys are typically accessed by holding down the Fn key and pressing the corresponding F-key.

## MAINTENANCE

- **Cleaning:** To clean the keyboard, disconnect it from your computer. Use a soft, dry cloth to wipe the surface. For dust and debris between keycaps, use compressed air. For stubborn stains, a slightly damp cloth with a mild cleaning solution can be used, ensuring no liquid enters the keyboard.
- **Keycap Removal:** Use the provided keycap puller to carefully remove keycaps for deeper cleaning or replacement. Avoid excessive force to prevent damage to the switches.
- **Storage:** When not in use for extended periods, store the keyboard in a dry, dust-free environment.

## TROUBLESHOOTING

- **Keyboard Not Responding:**

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try connecting the keyboard to a different USB port.
- Restart your computer.
- Test the keyboard on another computer to rule out a system-specific issue.

- **Keys Not Registering:**

- Check for any debris or foreign objects under the keycap.
- If a specific key is consistently failing, it may indicate a switch issue. Contact customer support if the issue persists.

- **RGB Lighting Not Working/Incorrect:**

- Ensure the keyboard is properly connected.
- Cycle through the lighting effects using the Function (Fn) key combinations to see if it responds.
- If applicable, check for any software settings that might be overriding the onboard controls.

- **Macros Not Working:**

- Verify that the macros were recorded correctly according to the Quick Start Guide.
- Ensure you are in the correct gaming profile if macros are tied to profiles.

## SPECIFICATIONS

Feature	Detail
Brand	ASUS
Model Name	CERBERUS MECH RGB Keyboard
Product Dimensions	44.8 x 15 x 3.5 cm
Item Weight	1.25 kg
