Installation Guide

Follow these steps for a secure and proper installation of your IndianShelf handle:

1. **Prepare the Surface:** Ensure the surface of your door, drawer, or cabinet is clean and free from dust or debris.
2. **Mark Drill Points:** Measure and mark the exact locations for drilling holes. For this handle, the approximate distance between bolts is 2.5 inches. Use a pencil to mark clearly.
3. **Drill Holes:** Carefully drill a hole at each marked point. Ensure the drill bit size matches the diameter of the handle's screws to allow for a snug fit.
4. **Position the Handle:** Align the handle with the drilled holes on the front of your furniture piece.
5. **Secure with Hardware:** From the back side of the furniture, insert the provided screws through the drilled holes and into the handle.
6. **Tighten:** Use a plier or screwdriver to tighten the hardware securely. Do not overtighten, as this may damage the handle or the furniture.
7. **Final Check:** Gently pull on the handle to ensure it is firmly attached and does not wobble.

Operating Instructions

The IndianShelf Glass Blue Decorative Door Handle is designed for simple and effective operation. Once securely installed, it functions as a pull handle for opening and closing doors, drawers, cabinets, wardrobes, and dressers. Simply grasp the handle firmly and apply gentle force in the desired direction to operate the furniture piece.

Maintenance

To maintain the pristine appearance and functionality of your IndianShelf Glass Blue Decorative Door Handle, follow these simple maintenance guidelines:

- **Cleaning:** Clean the handle regularly with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong detergents, or chemical solvents, as these can damage the glass and metal finishes.
- **Check Fastenings:** Periodically check the screws and ensure they are tight. If the handle feels loose, gently tighten the screws with a plier or screwdriver.

Troubleshooting

Most issues with your handle can be resolved with simple checks:

Problem	Possible Cause	Solution
Handle is loose or wobbly.	Screws have loosened over time.	Tighten the mounting screws from the back of the furniture using a plier or screwdriver.
Handle does not align with holes.	Incorrect measurement or drilling during installation.	Carefully re-measure and re-drill holes if necessary. Ensure precise alignment before tightening.
Scratches or damage to the handle.	Impact or abrasive cleaning.	Avoid dropping the handle or using harsh cleaning materials. Minor scratches on metal parts may be buffed with appropriate polish (consult a professional if unsure). Glass damage is typically not repairable.

Specifications

Attribute	Detail
Brand	Indian Shelf
Model Number	GH-59-1-US
Material	Glass
