- **Activated Carbon Filter:** Reduces common household odors from cooking, pets, and smoke.

For detailed instructions on operating your Crane Air Purifier, please refer to the main instruction manual provided with the air purifier unit.

MAINTENANCE: FILTER REPLACEMENT SCHEDULE

Regular replacement of the air filter is crucial for maintaining the efficiency and effectiveness of your Crane Air Purifier. The recommended replacement timeline for the HS-1944 filter is every **3 to 6 months**. This duration can vary based on:

- **Usage Frequency:** Continuous operation will require more frequent replacement.
- **Air Quality:** Environments with higher levels of pollutants, allergens, or pet dander may necessitate earlier replacement.
- **Indicator Light:** Pay attention to your air purifier's filter replacement indicator, if equipped.

Failure to replace the filter regularly can lead to decreased air purification performance and potentially reduce the lifespan of your air purifier.
