OPERATING INSTRUCTIONS

The Homelegance Appert Swivel Bar Stools are designed for simple operation.

Swivel Function:

Each stool is equipped with a 360-degree swivel mechanism located beneath the seat. To rotate, simply apply gentle pressure with your body while seated. Ensure the stool is on a stable, level surface before swiveling.

Avoid sudden or forceful movements when swiveling to maintain stability and prevent tipping. Do not stand on the stool or use it as a step ladder.

MAINTENANCE

Proper care will extend the life and appearance of your bar stools.

- **Cleaning:** For general cleaning, wipe the faux leather seat and back with a **damp cloth**. For the metal frame, wipe with a **dry cloth**. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the finish and upholstery.

- **Spills:** Immediately blot any spills with a clean, dry cloth. Do not rub, as this can spread the stain.
- **Hardware:** Periodically check all bolts and screws to ensure they are tight. Loose hardware can compromise the stability and safety of the stool. Retighten as needed using the provided Allen wrench or an appropriate tool.
- **Placement:** Avoid placing the stools in direct sunlight or near heat sources, which can cause the faux leather to fade or crack over time.

TROUBLESHOOTING

If you encounter any issues with your Homelegance Appert Swivel Bar Stools, please refer to the following common solutions:

Problem	Possible Cause	Solution
Stool feels wobbly or unstable.	Loose assembly hardware. Uneven floor surface.	Check and tighten all bolts and screws. Ensure the stool is on a flat, level surface. If the floor is uneven, consider using furniture pads or shims.
Swivel mechanism is stiff or noisy.	Lack of lubrication. Debris in the mechanism.	Apply a small amount of silicone-based lubricant to the swivel plate. Clean any visible debris from around the mechanism.
Faux leather upholstery appears creased or wrinkled.	Packaging compression.	Minor creases from packaging typically relax over time with use. Gentle warmth (e.g., from a hairdryer on low setting, held at a distance) can help, but test on an inconspicuous area first.

If the problem persists after attempting these solutions, please contact Homelegance customer support.
