

## Blackburn BL475CLRC

# Blackburn Click USB Light Instruction Manual

Model: BL475CLRC

## INTRODUCTION

---

The Blackburn Click USB Light is a compact and versatile bicycle light designed to enhance your visibility and safety. This manual provides essential information for the proper setup, operation, and maintenance of your light.

### Key Features:

- **ANSI FL-1 Standard Compliant:** Tested to provide consistent performance measurements for brightness, run time, and water resistance.
- **IP-65 Water and Dust Resistant:** Fully protected against dust and grit, and resistant to strong jets of water from all directions.
- **USB Rechargeable:** Conveniently recharges via any standard USB port, eliminating the need for disposable batteries.
- **Versatile Mounting:** Features an integrated clip and a silicone mounting strap for flexible placement on your bicycle or gear.

## SETUP

---

### Mounting the Light

The Blackburn Click USB Light offers flexible mounting options. Use the integrated clip to attach it to bags or clothing, or utilize the included silicone strap for secure attachment to your bicycle's handlebars, seat post, or frame.

### **Charging the Battery**

Before first use, fully charge the light. To charge, simply plug the integrated USB connector directly into any standard USB port (e.g., on a computer, wall adapter, or power bank). A red indicator light will show that the device is charging, and it will turn off or change color when fully charged.

## OPERATING INSTRUCTIONS

---

### Power On/Off and Mode Selection

The Blackburn Click USB Light is operated using a single button located on the light's body.

- **To Turn On:** Press the button once.
- **To Cycle Modes:** Press the button repeatedly to switch between the available light modes (e.g., continuous, flashing). This model features 2 distinct settings.
- **To Turn Off:** Press and hold the button for approximately 1-2 seconds.

## MAINTENANCE

---

### Cleaning

To maintain optimal performance and appearance, regularly clean your light. Wipe the exterior with a soft, damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the light's casing or lens.

## Battery Care

For best battery longevity, avoid completely draining the battery before recharging. Recharge the light regularly, especially if it has not been used for an extended period. Store the light in a cool, dry place when not in use.

## TROUBLESHOOTING

---

### Light Not Turning On

- Ensure the battery is sufficiently charged. Connect the light to a USB power source and check if the charging indicator activates.
- Press and hold the power button for a few seconds to confirm it is not in a standby or locked mode.

### Light Not Charging

- Verify that the USB connection is secure and fully inserted into both the light and the power source.
- Try using a different USB port or a different charging adapter to rule out issues with the power source.
- Inspect the charging port on the light for any debris or damage that might obstruct the connection.

## SPECIFICATIONS

---

### Product Details:

Feature	Detail
Brand	Blackburn
Model Number	BL475CLRC (7074412)
Color	Black
Material	Plastic
Power Source	USB Charging
Water Resistance Level	IP65 (Water Resistant)
Item Weight	22 Grams
Mounting Type	Seat Mount (also clip-on)
Number of Settings	2
Light Output Maximum	20 Lumens
Auto Part Position	Rear
UPC	768686731105
