### 3.2. App Download and Pairing

The "My Nevo" app is essential for configuring your remote. It is available on both Android and iOS devices.

1. Scan the QR code provided on the product packaging or in the quick start guide to download the "My Nevo" app from your device's app store (Google Play Store for Android, Apple App Store for iOS).
2. Open the "My Nevo" app and grant necessary permissions, including location access and Bluetooth activation, if prompted.
3. Within the app, select "Smart Streamer" as your remote type.
4. To initiate pairing, press and hold the **OK** button on your remote control for 3 seconds. The remote's indicator light will flash, indicating pairing mode.
5. In the app, tap "Search for remote" to begin the pairing process. This may take up to 30 seconds. If the connection fails, try again.

### 3.3. Adding Devices (TV, Soundbar, etc.)

Once paired, the app will guide you through adding your devices:

1. From the app's home screen, select "Add TV" or navigate to "My Devices" to add other device types (e.g., Audio Device for Soundbar, Streaming Device, Set Top Box, DVD/Blu-ray).
2. Select the brand of your device (e.g., Sony for TV, LG for Soundbar).
3. The app will present a series of code sets. Follow the on-screen instructions to test the highlighted keys on your remote to ensure they control your device.
4. If the keys work, confirm in the app. If not, proceed to test the next code set until your device responds correctly.
5. Repeat this process for each device you wish to control with your universal remote (up to 4 devices in total).

2. Select "Set up app keys".
3. Choose the device (e.g., Sony TV) for which you want to create the shortcut.

7. Once assigned, pressing the selected app key on your remote will directly launch the corresponding application on your smart TV.

### 4.2. Creating Activities (Macros)

Activities allow you to control multiple devices with a single button press, such as turning on your TV and Soundbar simultaneously:

1. In the "My Nevo" app, navigate to "Activities".
2. Choose one of the available activity buttons on the remote (e.g., "Set Top Box" button).
3. Select the primary device you want to control for this activity (e.g., your TV).
4. The app will automatically include all configured devices. You can then remove any devices you do not wish to be part of this specific activity.
