## 1. INTRODUCTION

The simplehuman 8-inch Round Sensor Makeup Mirror (Model ST3054) is designed to provide optimal lighting and magnification for makeup application and skincare routines. Featuring a tru-lux light system, it simulates natural sunlight to ensure accurate color representation. The mirror includes a sensor for automatic illumination, touch-control brightness, and 5x magnification for detailed work. Its cordless and rechargeable design offers convenience and portability.

## 2. SETUP

---

### 2.1 Initial Charging

Before first use, fully charge your simplehuman sensor mirror. Use only the provided USB-C charging cord. The charging port is located at the back of the mirror's base.

- Connect the USB-C cable to the mirror's charging port.
- Plug the other end of the cable into a compatible USB power adapter (not included) or a USB port.
- A light indicator on the mirror's base will flash red when charging and turn green when fully charged.
- A full charge can last up to 5 weeks, depending on usage.

## 3. OPERATING INSTRUCTIONS

### 3.1 Sensor On/Off Function

The mirror features a motion sensor that automatically illuminates the tru-lux light system as your face approaches. The light will turn off automatically when you move away from the mirror, conserving battery life.

Image: A hand demonstrating the sensor activation as it approaches the mirror, turning on the light.

### 3.2 Touch-Control Brightness

Adjust the brightness of the tru-lux light system by touching and holding the control area on the mirror's surface. This allows for a continuous range of brightness from 100 lux to 800 lux to suit your environment and preference.

Your browser does not support the video tag.

Video: Demonstration of adjusting the mirror's brightness using the touch-control feature.

### 3.3 Dual Light Settings

The mirror offers dual light settings: full sunlight and true-to-life candlelight. This allows you to check your look under different lighting conditions, ensuring your makeup is appropriate for any setting.

### 3.4 5x Magnification

The 5x magnification provides exceptional detail, making it ideal for precise tasks such as applying eyeliner, tweezing, or examining skin. Despite the magnification, the mirror still allows you to see your entire face at once.

### 3.5 Adjustability

The mirror is designed for maximum adjustability, allowing you to tilt and swivel the mirror head to achieve the perfect angle for your needs.

## 4. MAINTENANCE

---

To keep your simplehuman sensor mirror in optimal condition, wipe it clean regularly with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these can damage the mirror's surface or finish.

## 5. TROUBLESHOOTING

---

### 5.1 Light Not Turning On Automatically

- Ensure the mirror is charged. The sensor requires power to operate.
- Check for any obstructions in front of the sensor located at the top of the mirror.
- Ensure you are within the sensor's detection range (typically a few inches from the mirror).

### 5.2 Battery Not Holding Charge

- Confirm you are using the original simplehuman USB-C charging cable.
- Ensure the charging cable is securely connected to both the mirror and the power source.
- Allow the mirror to charge for a full cycle (until the indicator light turns green).
- Avoid exposing the battery to extreme temperatures.

### 5.3 Light Flickering or Dimming Unexpectedly

- The battery may be low. Recharge the mirror fully.
- Ensure the touch-control brightness is not being accidentally activated.

## 6. SPECIFICATIONS

Feature	Detail
Brand	simplehuman
Model Number	ST3054
Shape	Round
Product Dimensions	9.1"L x 4.7"W
Frame Material	Stainless Steel
Finish Type	Stainless Steel
Special Feature	Lighted, Touch Sensor
Color	White Stainless Steel
Item Weight	3.1 Pounds
Magnification	5x
Light System	Tru-lux (800 lux, CRI 95)
Battery Life	Up to 5 weeks on a single charge
Power Source	Rechargeable Lithium Ion Battery (USB-C)
