

SIMOLIO SM-621D

SIMOLIO Wireless Portable TV Speakers User Manual

Model: SM-621D

INTRODUCTION

The SIMOLIO SM-621D Wireless Portable TV Speaker is designed to provide enhanced TV audio listening assistance, particularly for individuals who are hard of hearing, seniors, and the elderly. This device allows you to bring clear, amplified TV sound closer to you, eliminating the need for excessively high TV volumes that might disturb others. Featuring voice highlighting technology and multiple connectivity options, it offers a comfortable and convenient listening experience.

WHAT'S INCLUDED

Please check the package contents to ensure all items are present:

- Charging Base/Transmitter
- Speaker/Receiver
- 2 AC Adapters
- 1 Stethoscope headset
- Digital Optical Cable
- RCA Audio Cable
- 3.5mm AUX Audio Cable
- User Instruction Manual
- Quick Guide

Image: The SIMOLIO SM-621D speaker, its charging base, a stethoscope headset, two AC adapters, and various audio cables (optical, RCA, 3.5mm AUX).

SETUP GUIDE

Follow these steps to connect your SIMOLIO Wireless Portable TV Speaker to your television or audio source.

1. Charging the Speaker

Before first use, fully charge the speaker. Place the speaker onto the charging base, ensuring the charging contacts align. Alternatively, you can connect one of the provided AC adapters directly to the speaker's charging port for continuous use. A full charge typically takes 3 hours and provides up to 6 hours of continuous operation.

Will this product work on my TV?

CONNECTION JACK		WORK OR NOT	NOTES
Headphone		✓	Internal TV speakers may be muted
AUDIO OUT		✓	TVs like Vizio may require analog audio settings set to "Fixed"
DIGITAL AUDIO OUT (OPTICAL)		✓	
DIGITAL AUDIO OUT (COAXIAL)		✗	Need to purchase digital to analog audio converter (search Simolio SM-DAC01)
HDMI eRAC		✗	Need to purchase HDMI audio extractor splitter
6.35mm Phone		✗	Need to purchase 6.35mm to 3.5mm adapter
COMPOSITE IN		✗	
AUDIO IN		✗	

Image: Demonstrates two charging methods: placing the speaker on the charging base or connecting it directly to a power adapter.

2. Connecting the Transmitter to Your TV

The transmitter (charging base) connects to your TV's audio output. Choose one of the following connection methods:

Optical Audio Connection (Recommended for Digital Audio)

1. Connect one end of the Digital Optical Cable to the "Optical Out" port on your TV.
2. Connect the other end to the "Optical In" port on the SIMOLIO transmitter.
3. Ensure your TV's audio output settings are configured to "PCM" or "Stereo" for the optical output. Some TVs (e.g., Vizio) may require audio settings to be set to "Fixed".
4. If your TV's optical port is already in use by a soundbar, an optical splitter (sold separately) will be required.

RCA Audio Connection (Analog Audio)

1. Connect the RCA Audio Cable (red and white plugs) to the "Audio Out" (L/R) ports on your TV.
2. Connect the other end of the RCA cable to the corresponding RCA input ports on the SIMOLIO transmitter.

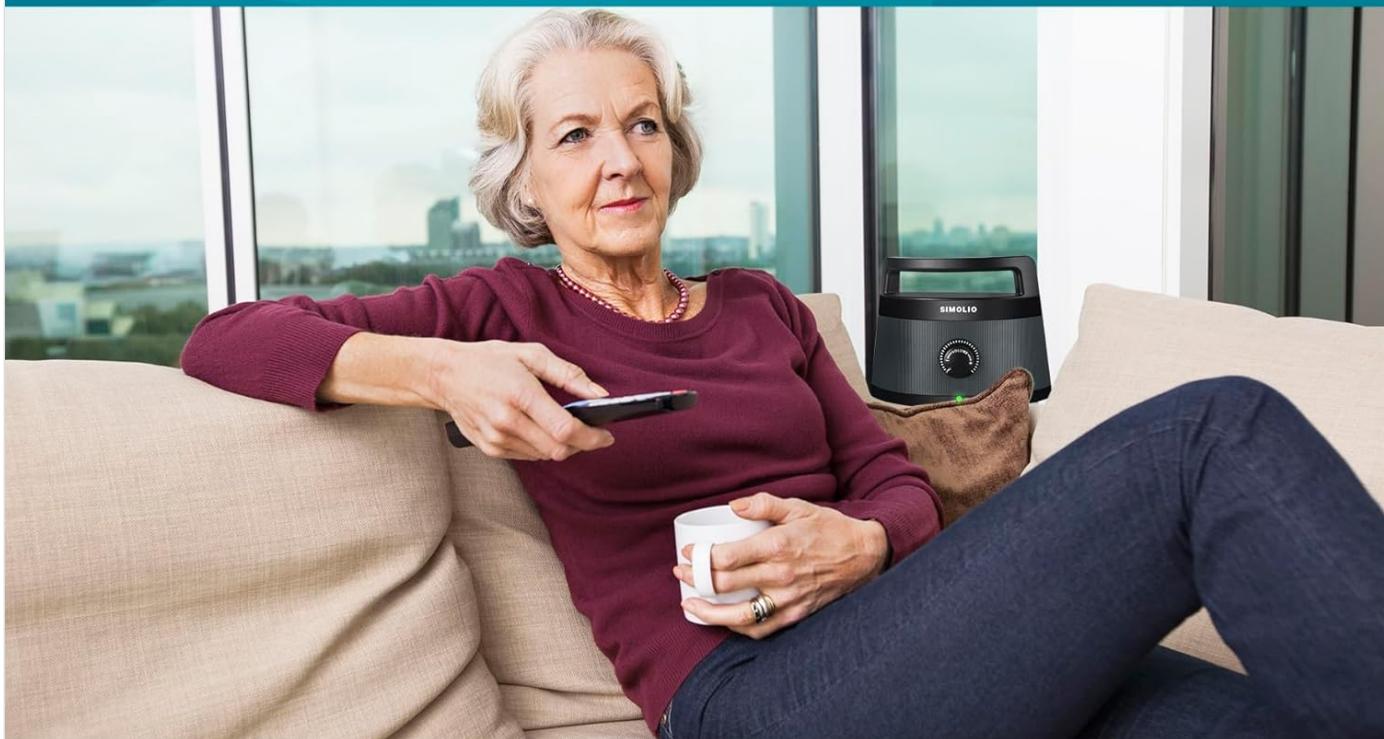

3.5mm AUX Audio Connection (Headphone Jack)

1. Connect the 3.5mm AUX Audio Cable to the headphone jack or "Audio Out" port on your TV.
2. Connect the other end to the 3.5mm AUX input port on the SIMOLIO transmitter.
3. Note: Plugging into the TV's headphone jack may silence the TV's internal speakers. Consult your TV manufacturer for details.

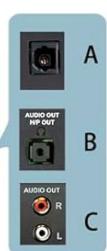

Personal Wireless TV Speaker

No more blaring volume

Ideal for seniors or people who have hearing issues

Three connection options available

Optical Audio out

3.5mm Audio out

RCA Audio out

Transmitter (SM-621D)

Image: Visual guide illustrating the three primary audio connection methods (Optical, 3.5mm AUX, RCA) from a TV to the SIMOLIO transmitter.

Elevates Every Moment

Easily switch to wired mode using the included 3.5mm AUX cable for a versatile audio experience.

Image: A table detailing which TV connection jacks are compatible and which may require additional converters (e.g., HDMI, Coaxial, 6.35mm Phone).

3. Powering the Transmitter

Connect one of the provided AC adapters to the power input on the transmitter and plug it into a wall outlet.

OPERATING INSTRUCTIONS

Power On/Off and Volume Control

The large knob on the front of the speaker controls both power and volume. Turn the knob clockwise to power on the speaker and increase the volume. Turn it counter-clockwise to decrease the volume and power off the speaker.

Image: Illustrates the function of the main volume knob for power and volume adjustment, and indicates the charging port location.

Voice Highlighting and Tone Adjustment

The speaker features voice highlighting technology and tone adjustment to enhance dialogue clarity, making TV conversations stand out from background sounds. This helps in finding the optimal listening level without constant remote adjustments.

Customize Your TV Sound

Choose from 3 TONE settings to personalize the TV sound according to your listening preferences.

Image: Depicts how users can customize TV sound with three tone settings: Movie, News, and Music, to suit their listening preferences.

Private Listening with Headset

For private listening, connect the included stethoscope headset to the speaker's headphone jack. This allows you to listen to TV audio without disturbing others, even if the TV's main volume is muted.

Includes A Headphone for Quiet Listening No Disturbing to Others in the Room

Image: An elderly couple watching TV, with one person using the included headset for quiet, private listening, ensuring no disturbance to others.

Image: A close-up of the stethoscope-style headset, designed for comfortable and private audio listening.

Portability and Range

The speaker offers a wireless range of up to 100 feet (approximately 30 meters), allowing you to move freely around your home while enjoying clear TV audio. Its portable design makes it easy to carry from room to room.

One Transmitter to Multiple Speakers

Add more speakers to this system, share the magic of music and movies anywhere in your home with your loved ones.

Image: An elderly woman in a kitchen, with the portable SIMOLIO speaker on the counter, illustrating the freedom of movement within its 30-meter wireless range.

Multiple Speakers (Optional)

This system supports connecting multiple SIMOLIO speakers to a single transmitter, allowing you to share the TV audio experience in different rooms. If using two sets of speakers on two different TVs in the same household, ensure a distance of at least 10 meters between them to avoid interference.

Perfect Gift Idea

Elevate your loved ones' TV experience with this heartwarming gift.

* available in various colors *

Image: Two elderly individuals, one carrying a SIMOLIO speaker, illustrating the concept of using multiple speakers with a single transmitter to share audio throughout the home.

MAINTENANCE

- Battery Care:** When the speaker is powered directly by an AC adapter for extended periods, it is recommended to remove the battery to prevent potential swelling or damage.
- Headset Ear Tips:** The stethoscope-style headset comes with memory foam ear tips. It is suggested to replace these every 30 to 60 days for optimal hygiene and performance. Replacement ear tips are sold separately.
- Cleaning:** Wipe the speaker and transmitter with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.

Top-Grade Safety Battery

Image: A diagram highlighting the upgraded battery's safety features, including 0V charging prohibition, pressure relief vent valve, short-circuit protection, and over-charge/over-discharge protection.

TROUBLESHOOTING

If you encounter issues with your SIMOLIO Wireless Portable TV Speaker, please refer to the following common solutions:

- **No Sound:**

- Ensure the speaker is powered on and the volume is turned up.
- Verify that the transmitter is properly connected to your TV's audio output and powered on.
- Check your TV's audio output settings. For optical connections, ensure "PCM" or "Stereo" is selected.
- Confirm the correct audio input is selected on the transmitter (if applicable).
- Ensure the speaker is within the 100ft (30m) wireless range of the transmitter.

- **Interference or Poor Sound Quality:**

- Move the speaker closer to the transmitter.
- Ensure there are no large metal objects or other 2.4GHz wireless devices (e.g., Wi-Fi routers, cordless phones) directly between the speaker and transmitter that could cause interference.
- If using multiple SIMOLIO units in the same household, ensure they are at least 10 meters apart to prevent cross-connection issues. The speaker and base unit are not specifically paired, and a speaker may connect to another base unit if too close.

- **Speaker Not Charging:**

- Ensure the AC adapter is securely connected to both the charging base/speaker and the wall outlet.
- Verify the charging contacts on the speaker and base are clean and free of debris.

- **Headset Not Working:**

- Ensure the headset is fully plugged into the speaker's headphone jack.
- Check for any damage to the headset cable or plug.

SPECIFICATIONS

Feature	Detail
Model Name	SM-621D
Brand	SIMOLIO
Speaker Type	Soundbar (Portable TV Speaker)
Connectivity Technology	2.4GHz Wireless (RF)
Maximum Range	100 Feet (approx. 30 meters)
Battery Life	6 Hours (continuous operation)
Charging Time	3 Hours
Speaker Maximum Output Power	10 Watts
Frequency Response	20000 Hz
Signal-to-Noise Ratio	70 dB
Product Dimensions	4"D x 8.7"W x 7.7"H
Item Weight	2.7 pounds
Power Source	Corded Electric & Battery Powered
Included Components	Charging Base/Transmitter, Speaker/Receiver, 2 AC Adapters, 1 Stethoscope headset, Digital Optical Cable, RCA Audio Cable, 3.5mm AUX Audio Cable, User Instruction Manual, Quick Guide

WARRANTY AND SUPPORT

The SIMOLIO SM-621D Wireless Portable TV Speaker comes with a Full Warranty. For detailed warranty information or technical support, please refer to the User Instruction Manual included in your package or visit the official SIMOLIO website.

You can also find the User Guide (PDF) online: [SIMOLIO SM-621D User Guide](#)

For customer service inquiries, please contact Simolio Direct, the seller, or refer to the contact information provided in your product documentation.

SIMOLIO Wireless TV Speaker Model SM-621D Color Silver

Q: Speaker system is connected to TV using the optical cable. There is visible red light through the TV to the speaker base. Why is there no sound?
A: Please make sure that TV and TV box's digital audio format is set to PCM, or that Dolby on TV or OFF. Refer to TV manual or write to us with your TV brand and model for more information.

Q: How is connected to TV's headphone jack/3rd and white RCA audio out jack.
All connections checked and battery is recharged to be fully charged. Why sound not heard?
A: Some TVs require additional settings when external audio system is connected to the TV. Please refer to the TV manual or write to us with your TV brand and model and set your TV's settings radio to "fixed". That is especially true with newer VIZIO TV models.

Q: Box is connected to TV's headphone jack. All connection checked and battery full, but there is still no sound?
A: Please make sure that TV and TV box's digital audio format is set to PCM, or that Dolby on TV or OFF. Refer to TV manual or write to us with your TV brand and model. Please also note that digital audio format must be set to PCM.

Q: To watch streaming channels, do I have to connect the transmitter base to the TV's digital optical port?
A: Some streaming media only provide the sound output on TV's digital optical output port, making connection via set and white RCA, port, or headphone jack not possible.

Q: Will TV speakers be muted if speaker base is plugged into a battery full, but there is still no sound?
A: This is a common problem with some TV models. On some TV models, the TV's speakers will be either automatically muted when a plug something into and out of the TV (AV port, for example) or they become disabled once you choose "External Speaker" as the TV's audio output.

Q: What type of battery is used?

A: Lithium Polymer battery is used in the speaker receiver.
Q: How long can the TV run on a full charge?
A: About 10 hours. The design is to last 8 hours.

Q: How far can the TV run be transmitted?
A: Usually the signal can go up to 30 feet in line-of-sight open air. Sound reproduction strength depends on the environment.

Q: Can the battery be replaced or do I purchase additional battery?
A: Yes. Battery can be easily replaced by user. Additional battery is available separately on [amazon.com](http://www.amazon.com).

Q: What is the TV's volume?

A: Volume is controlled by the TV's volume control.

Q: How do I turn off the TV's volume?

A: Turn off the TV's volume control.

Q: How do I turn off the TV's volume?

A: Turn off the TV's volume control.

Confidentiality Request

To whom it may concern:

Pursuant to Section 0.407 and 0.409 of the Commission's Rules and DA04-1705 June 15, 2004
of the Commission's public notice, we hereby request confidential treatment of the information
submitted in the application as outlined below:

Long-Term Confidentiality

Block Diagram Turn-Up Information
 Operational Description Security Information
 Schematics Software Defined Radio (SDR)
 Test Data User Manual

Short-Term Confidentiality (180 days)

External Photos Test Setup Photos
 Internal Photos User Manual

The above materials contains trade secrets and proprietary information not customarily released to the public. Disclosure of these materials may be harmful to the applicant and provide
unjustified benefits to its competitor.

The applicant understands that pursuant to Section 0.407 of the Rules, disclosure of the
application and all accompanying documentation will not be made before the date of the Grant of this
application.

Sincerely,

Shenzhen Simolio Electronic Co., Ltd

Jiang Yu
(Marketing Department)
