5. Operating Instructions (How to Play)

The game is simple and fast-paced:

1. **Start the Game:** On the count of three, all players begin pressing their hippo's tail lever as quickly as possible.
2. **Mumping Marbles:** Each press of the lever makes the hippo's mouth open and close, attempting to 'mump' (eat) the marbles in the center.
3. **Objective:** The goal is to collect as many marbles as possible into your hippo's collection area.
4. **Game End:** The game ends when all marbles have been 'mumped' from the central play area.
5. **Winning:** Players count the marbles collected by their hippo. The player with the most marbles wins the round.

Bonus Game: The Golden Marble

For an extra challenge, incorporate the golden/yellow marble:

- The game is played as usual, but the golden marble holds special significance.
- If a player's hippo 'mumps' the golden marble, that player automatically wins the game, regardless of the number of other marbles collected.
- This adds an element of strategy and quick reaction to target the golden marble.

Two young children are shown actively engaged in playing the Hippo Flipp game. They are positioned at the game board, pressing the levers behind their hippos, demonstrating the interactive nature of the game.

- **Storage:** Store the game in its original box or a clean, dry place away from direct sunlight and extreme temperatures.
- **Marble Care:** Keep marbles clean and free of debris to ensure smooth gameplay.

7. Troubleshooting

If you encounter any issues while playing Hippo Flipp, consider the following:

- **Hippo Not Mumping:** Ensure the hippo figure is correctly attached to its slot on the game board. Check for any obstructions under the hippo's head or around the lever mechanism.
- **Marbles Not Feeding:** Make sure the marbles are evenly distributed in the central area and not clumped together. Ensure the game board is on a flat, stable surface.
