DEWENWILS HORS13B

DEWENWILS Outdoor Remote Control Outlet

Model: HORS13B

INTRODUCTION

Thank you for choosing the DEWENWILS Outdoor Remote Control Outlet. This device is designed to provide convenient wireless control over your outdoor and indoor electrical appliances, such as string lights, fountain pumps, and holiday decorations. Please read this manual thoroughly before installation and operation to ensure safe and optimal performance.

SAFETY INFORMATION

- **Risk of Electric Shock:** Do not immerse the unit in water. Ensure the outlet covers are securely twisted to protect from rain, snow, and dust.

- **Outdoor Use:** This product is designed for outdoor use but should be installed vertically at least 2 feet above the ground to prevent water accumulation.

- **Power Rating:** Do not exceed the maximum load capacity of 125 Volts, 15 Amps, 1875 Watts (Resistive), 1000 Watts (Tungsten), or 1/2 HP. Overloading can cause overheating and fire.

- **Grounding:** Always plug the unit into a grounded outlet.

- **Children and Pets:** Keep the unit and remote out of reach of children and pets.

- **Damage:** Do not use if the cord or unit is damaged.

MOUNTING HOLE

A composite image highlighting key features of the DEWENWILS outlet. It shows a flat plug design, yellow safety covers over the outlets, a red indicator light on the unit, and a mounting hole for secure installation.

This image illustrates the waterproof design of the DEWENWILS outlet, shown installed vertically on a brick wall during rain, with water droplets visible. The background shows outdoor string lights, emphasizing its suitability for outdoor use. A note advises against immersion and recommends installation at least 2 feet above ground.

100 FT RANGE

Strong RF signal works through walls/doors/windows without interference

A person inside a house is shown using the remote control to operate the outdoor outlet, which is visible outside. This demonstrates the 100-foot RF signal range, indicating that the remote works effectively through walls, doors, and windows without interference.

SETUP

1. **Unpack:** Carefully remove the outdoor remote control outlet and remote from its packaging.

2. **Battery Check:** The remote control comes with a pre-installed CR2032 battery. No initial battery installation is required.

3. **Placement:** Choose a suitable location for the outdoor outlet. For outdoor use, ensure it is installed vertically and at least 2 feet above the ground to protect it from standing water.

4. **Plug In:** Plug the outdoor remote control outlet into a grounded 125V electrical receptacle.

5. **Connect Appliances:** Plug your desired outdoor or indoor appliances into the three grounded outlets on the DEWENWILS unit. Ensure the total wattage does not exceed 1875W.

6. **Test:** Use the remote control to test the functionality of the connected appliances.

OPERATING INSTRUCTIONS

The DEWENWILS Outdoor Remote Control Outlet is designed for simple operation using the included wireless remote.

- **Turning ON:** Press the 'ON' button on the remote control to activate the connected appliances. The indicator light on the outlet unit will illuminate.

- **Turning OFF:** Press the 'OFF' button on the remote control to deactivate the connected appliances. The indicator light on the outlet unit will turn off.

- **Range:** The remote control operates effectively up to 100 feet in open areas and can transmit signals through walls, doors, and windows due to its strong RF signal.

MAINTENANCE

- **Cleaning:** Disconnect the unit from the power source before cleaning. Wipe the unit with a dry, soft cloth. Do not use harsh chemicals or abrasive cleaners.

- **Storage:** When not in use for extended periods, store the unit in a cool, dry place away from direct sunlight and moisture.

- **Battery Replacement:** The remote control uses one CR2032 battery. If the remote's range decreases or it stops responding, replace the battery. To replace, open the battery compartment on the back of the remote, remove the old battery, and insert a new CR2032 battery with the positive (+) side facing up.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Outlet not responding to remote.	Battery in remote is dead or low.	Replace the CR2032 battery in the remote control.
Outlet not responding to remote.	Unit is unplugged or power outage.	Ensure the outlet unit is securely plugged into a live electrical receptacle. Check your home's circuit breaker.
Connected appliance does not turn on.	Appliance is not properly plugged into the outlet unit.	Ensure the appliance's plug is fully inserted into one of the three outlets on the DEWENWILS unit.
Connected appliance does not turn on.	Appliance itself is faulty or turned off.	Test the appliance by plugging it directly into a standard wall outlet. Ensure the appliance's own power switch is in the 'ON' position.
Remote range is reduced.	Interference or obstacles.	Move closer to the outlet unit or remove large metallic objects that may be blocking the signal.
Indicator light on outlet is off, but remote is pressed.	Unit is overloaded.	Unplug some appliances. Ensure total wattage does not exceed 1875W.
