PURPLE LEAF 300 x 300 cm

PURPLE LEAF Offset Patio Umbrella Instruction Manual

Model: 300 x 300 cm

1. Introduction and Safety Information

Thank you for choosing the PURPLE LEAF Offset Patio Umbrella. This manual provides essential information for the safe assembly, operation, and maintenance of your umbrella. Please read it thoroughly before use and retain it for future reference.

Important Safety Warnings:

- **Secure the Base:** This umbrella requires a heavy base (not included) for stability. Ensure the base is adequately weighted to prevent tipping, especially in windy conditions. Refer to the product page for compatible bases (e.g., B086299JQ4).
- **Wind Conditions:** Do not leave the umbrella open and unattended in strong winds or adverse weather. High winds can cause damage to the umbrella and surrounding property, and may lead to injury. Always close and secure the umbrella when not in use or during windy conditions.
- **Assembly:** Due to its size, assembly is recommended for two people.
- **Clearance:** Ensure adequate clearance around the umbrella when opening, closing, or rotating to avoid obstructions or damage.
- **Children and Pets:** Keep children and pets away from the umbrella during operation to prevent accidents.

2. Package Contents

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Umbrella Canopy (100% yarn-dyed polyester fabric)
- Main Pole/Mast (Aluminum)
- Offset Arm Assembly
- Crank Handle Mechanism
- Protective Cover with Velcro Strap

- Hardware Pack (bolts, washers, nuts)

3. Setup and Assembly

Follow these steps for proper assembly. Two people are recommended for this process.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Attach Base (Sold Separately):** Secure the main pole to your chosen umbrella base according to the base manufacturer's instructions. Ensure the base is stable and properly weighted.
3. **Connect Offset Arm:** Attach the offset arm assembly to the main pole using the provided hardware. Ensure all bolts are tightened securely.
4. **Mount Canopy:** Carefully lift and attach the umbrella canopy to the offset arm. Ensure the canopy ribs align correctly with the support structure.
5. **Install Crank Handle:** Attach the crank handle to the designated mechanism on the pole.

Image: A diagram illustrating the dimensions of the umbrella, including its 10-foot square canopy and overall height of 8.1 feet. It also shows recommended table sizes for 4 people.

Image: A cross-section comparison of the PURPLE LEAF umbrella pole (90x55mm) and a generic pole, highlighting the robust aluminum construction designed to withstand winds up to 30 mph.

4. Operating Instructions

Your PURPLE LEAF umbrella features a user-friendly crank and rotary tilt mechanism for easy adjustment.

Opening the Umbrella:

- Locate the crank handle on the main pole.
- Turn the crank handle clockwise to extend the umbrella canopy. Continue cranking until the canopy is fully open and taut.

Closing the Umbrella:

- Turn the crank handle counter-clockwise to retract the umbrella canopy.
- Ensure the canopy is fully closed and secured before leaving it unattended or during windy conditions.

Adjusting Tilt and Rotation:

- The umbrella features a 360° rotary mechanism. To rotate the canopy, locate the rotation lock (if present) and release it, then gently turn the canopy to the desired position. Re-engage the lock.
- The tilt mechanism allows for 6 levels of angle adjustment. Use the tilt control (often a lever or button near the crank) to adjust the canopy angle to block the sun effectively.

5. Maintenance

Regular maintenance will extend the life and appearance of your PURPLE LEAF umbrella.

- **Cleaning the Canopy:** Clean the 100% yarn-dyed polyester fabric canopy with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric and its UV protection. Rinse thoroughly and

allow to air dry completely before closing or covering.

- **Frame Care:** Wipe the aluminum frame with a damp cloth to remove dirt and debris. The powder-coated finish is designed for durability and rust resistance.
- **Protective Cover:** Always use the provided protective cover when the umbrella is not in use, especially during off-season storage or prolonged periods of inactivity. The cover helps protect the fabric from UV degradation, dirt, and moisture, maintaining its vibrant color and integrity.
- **Lubrication:** Periodically check the crank mechanism and moving parts. If operation becomes stiff, a silicone-based lubricant can be applied sparingly to hinges and joints.
- **Inspection:** Regularly inspect the umbrella for any signs of wear, loose bolts, or damage to the canopy or frame. Address any issues promptly to prevent further damage.

6. Troubleshooting

If you encounter issues with your umbrella, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Umbrella does not open or close smoothly.	Mechanism is stiff or obstructed.	Check for any obstructions in the canopy or frame. Apply a silicone-based lubricant to the crank mechanism and moving joints.
Umbrella does not lock in open position.	Locking pin or mechanism not engaged.	Ensure the canopy is fully extended. Check if the locking pin or lever is properly engaged. If a part is broken, contact customer support for a replacement.
Umbrella tips over easily.	Insufficient base weight or improper installation.	Ensure the umbrella base is adequately weighted for its size. Verify that the pole is securely fastened to the base. Close the umbrella in windy conditions.
Canopy fabric appears faded or damaged.	Prolonged exposure to sun/weather without cover.	Always use the protective cover when the umbrella is not in use. While the fabric is fade-resistant, extreme conditions can still affect it over time.
