Lifetime 90820

Lifetime Hard Cooler 55 Quart Instruction Manual

Model: 90820 | Brand: Lifetime

INTRODUCTION

This manual provides detailed instructions for the proper use and maintenance of your Lifetime 55 Quart High Performance Hard Cooler. Designed for durability and superior ice retention, this cooler is an essential companion for outdoor activities.

Key Features:

- Certified to Withstand a Bear For Up To an Hour
- Easy-to-Drain Spout with Garden Hose Compatibility
- Stainless Steel Bottle Opener with Padlock Compatibility
- Two Rubber Latches - Easily Opened with One Hand
- Up To 7-Day Ice Retention

SETUP

Unpacking and Initial Inspection

Carefully remove the cooler from its packaging. Inspect for any signs of damage during transit. Ensure all components, including the drain plug and latches, are intact and functional.

Initial Cleaning

Before first use, clean the interior and exterior of the cooler with mild soap and water. Rinse thoroughly and allow to air dry completely to prevent odors.

Pre-Chilling for Optimal Performance

For best ice retention, pre-chill your cooler before loading. Place a bag of ice or frozen water bottles inside the cooler with the lid closed for several hours or overnight. This lowers the internal temperature, reducing ice melt when you add your contents.

Figure 1: The Lifetime 55 Quart Hard Cooler in Boulder Gray, showcasing its robust design and latches.

Figure 2: Diagram illustrating effective ice layouts for maximizing ice retention. Layers from bottom to top: Food-Ice-Food-Ice. Always make ice your top layer. Freeze or pre-chill all food before placing in cooler. Arrange ice packs to surround food and drink. Crushed ice can be used as a bottom layer.

OPERATING INSTRUCTIONS

Lid Operation

The cooler features two rubber latches for secure closure. To open, pull the blue tab of each latch upwards and away from the cooler body. To close, align the lid and push the latches down until they securely engage the cooler body.

Carrying and Transport

The cooler is equipped with durable rope handles for easy transport. For heavy loads, it is recommended that two people carry the cooler using these handles. The cooler's robust construction allows it to be moved even when full.

55 Quart

Figure 3: Detailed dimensions of the 55 Quart Lifetime Hard Cooler. Outside dimensions are approximately 27 inches wide, 17.6 inches deep, and 17.25 inches high. Inside dimensions are approximately 19.5 inches wide, 10.6 inches deep, and 12.5 inches high.

Drain Spout Usage

The cooler includes an easy-to-drain spout with garden hose compatibility. To drain melted ice or water, unscrew the cap from the drain spout located on the side of the cooler. For continuous draining, attach a standard garden hose to the spout. Ensure the cap is securely tightened after draining to maintain the cooler's seal.

ICE RETENTION COMPARISON

TEST PROCEDURE:

1. Coolers brought to room temperature
2. Test performed in a controlled 72° F degree lab
3. Filled with .75 lb. of ice per quart
4. Used calibrated electronic thermometer inside cooler
5. Test finished when cooler temperature rose to 40 degrees

— All coolers were put through the same test to ensure accuracy.

ICE RETENTION: Iceretention is not measured consistently across companies.

Try our cooler against our competitors - We'll more than stack up to the competition.

MAINTENANCE

Cleaning

Clean the cooler with mild soap and water as needed. For stubborn stains or odors, a solution of baking soda and water can be used. Avoid abrasive cleaners or harsh chemicals that could damage the cooler's surface or insulation.

Storage

Store the cooler in a cool, dry place with the lid slightly ajar to allow for air circulation and prevent mildew or odors from forming. Ensure the drain plug is open during storage to allow any residual moisture to escape.

TROUBLESHOOTING

Reduced Ice Retention

- **Issue:** Ice melts faster than expected.
- **Solution:** Ensure the cooler was pre-chilled before use. Minimize opening the lid. Ensure latches are fully secured and the lid gasket is clean and free of debris. Consider using a higher ice-to-content ratio.

Lid Not Sealing Properly

- **Issue:** Lid does not close tightly or latches are difficult to engage.
- **Solution:** Check the rubber gasket around the lid for any damage, tears, or debris. Clean the gasket and the rim of the cooler. Ensure the latches are properly aligned and not obstructed.

Drain Spout Leakage

- **Issue:** Water leaks from the drain spout.
- **Solution:** Ensure the drain cap is securely tightened. Check the drain plug's rubber washer for wear or damage and replace if necessary.

SPECIFICATIONS

Feature	Detail
Brand	Lifetime
Model Name	High Performance
Model Number	90820
Color	Boulder Gray
Material	Plastic
Capacity	55 Quarts
Product Dimensions (D x W x H)	17.6"D x 27"W x 17.3"H
Item Weight	11 Grams
