OXO Good Grips POP Container Coffee Scoop Instruction Manual

Model: 11235500UK

1. PRODUCT OVERVIEW

The OXO Good Grips POP Container Coffee Scoop is an accessory designed to enhance the functionality of OXO POP Containers. This scoop features a 2 tablespoon (30 mL) capacity, making it ideal for accurately measuring coffee beans or ground coffee. It is engineered to securely attach to the underside of compatible OXO POP Container lids, ensuring convenient storage and accessibility.

A clear plastic coffee scoop with a capacity of 2 tablespoons (30 mL).

Key Features:

- **Integrated Storage:** Designed to attach neatly to the underside of OXO POP Container lids.
- **Optimal Capacity:** Features a 2 tablespoon (30 mL) capacity for precise measuring.
- **Compatibility:** Recommended for use with 1.7 Qt / 1.6 L OXO POP Containers (sized for 1 lb of coffee) and fits POP Containers with lid types A, B, C, D.
- **Durable & Safe:** Constructed from BPA-free material and is dishwasher safe.

2. SETUP AND ATTACHMENT

The OXO Coffee Scoop is designed for seamless integration with your OXO POP Containers. Follow these steps to attach the scoop to a compatible lid:

1. **Identify the Attachment Point:** Locate the circular button on the underside of your OXO POP Container lid. This is the designated attachment point for POP Accessories.
2. **Align the Scoop:** Position the coffee scoop so that its base aligns with the circular button on the lid. The scoop has a corresponding recess designed to fit over this button.
3. **Secure the Scoop:** Gently press the scoop onto the button until it clicks securely into place. Ensure it is firmly attached and does not wobble.

This image illustrates the simple process of securing the coffee scoop to the lid, ensuring it is always accessible.

Once attached, the scoop will remain securely in place, allowing you to store it conveniently with your coffee beans or ground coffee inside the container.

3. OPERATING INSTRUCTIONS

Using your OXO Coffee Scoop is straightforward for accurate portioning:

1. **Remove from Lid:** If the scoop is attached to the lid, gently detach it by pulling it away from the circular button.

2. **Scoop Contents:** Dip the scoop into your coffee beans or ground coffee within the POP Container. Ensure the scoop is filled to the desired level for accurate measurement. The scoop has a 2 tablespoon (30 mL) capacity.
3. **Dispense:** Carefully transfer the scooped contents to your coffee maker, grinder, or other receptacle.
4. **Re-attach (Optional):** After use, you can re-attach the scoop to the underside of the POP Container lid for convenient storage until its next use.

2T/30 mL capacity

The scoop's 2 tablespoon capacity is ideal for portioning coffee beans or ground coffee from storage containers.

4. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your OXO Good Grips POP Container Coffee Scoop, follow these maintenance guidelines:

- **Cleaning:** The coffee scoop is **dishwasher safe**. For best results, place it on the top rack of your dishwasher.
- **Hand Washing:** If hand washing, use warm, soapy water and a soft sponge or cloth. Rinse thoroughly and allow to air dry completely before re-attaching to the lid or storing.
- **Avoid Abrasives:** Do not use abrasive cleaners, scouring pads, or harsh chemicals, as these can scratch or damage the plastic.
- **Storage:** Store the scoop attached to its compatible POP Container lid or in a clean, dry place when

not in use.

5. TROUBLESHOOTING

If you encounter any issues with your coffee scoop, consider the following:

- **Scoop Not Attaching Securely:** Ensure the scoop is correctly aligned with the circular button on the underside of the POP Container lid. Apply gentle, even pressure until you feel it click into place. Verify that the lid type of your container is compatible (A, B, C, or D).
- **Difficulty Detaching Scoop:** If the scoop is difficult to remove, try wiggling it gently while pulling. Avoid excessive force to prevent damage.
- **Discoloration or Stains:** While the scoop is dishwasher safe, prolonged exposure to certain highly pigmented foods or strong detergents might cause slight discoloration over time. Regular cleaning after each use can help prevent this.
