Allocacoc 3902BK

Allocacoc Audio-Cube Portable Bluetooth Speaker 3902BK User Manual

Model: 3902BK

1. Introduction

The Allocacoc Audio-Cube is a portable Bluetooth speaker designed to deliver a 360-degree surround sound experience. Its omnidirectional speakers interact with the environment to provide immersive audio. This manual provides instructions for the proper setup, operation, and maintenance of your Audio-Cube speaker.

2. Package Contents

Please check the package for the following items:

- Allocacoc Audio-Cube Portable Bluetooth Speaker
- Power Cable (integrated power circuit)
- User Manual

3. Setup

3.1 Charging the Speaker

The Audio-Cube features an integrated power circuit, eliminating the need for a bulky external adapter. To charge the speaker, connect the provided power cable directly to a wall outlet. The internal battery provides up to 12 hours of playback on a full charge. A full charge typically takes approximately 3 hours.

3.2 Powering On/Off

The vibrating plane on the speaker also functions as the on/off switch. Press and hold this area to power the speaker on or off. You will hear an audible cue indicating the power status.

3.3 Bluetooth Pairing

1. Ensure the Audio-Cube is powered on.
2. The speaker will automatically enter Bluetooth pairing mode, indicated by a specific light pattern or audible prompt.
3. On your device (smartphone, tablet, laptop), navigate to the Bluetooth settings.
4. Select "Audio-Cube" from the list of available devices.
5. Once connected, the speaker will provide an audible confirmation.

3.4 AUX Connection

To connect via AUX, simply plug a 3.5mm audio cable into the AUX port on the Audio-Cube and the other end into your audio source. The speaker will automatically switch to AUX input when a cable is detected.

4. Operating Instructions

4.1 Volume Control

The Audio-Cube features touch controls for volume adjustment. Locate the '+' and '-' symbols on the speaker's surface. Tap '+' to increase volume and '-' to decrease volume.

4.2 Playback Control

A dedicated play/pause symbol is present on the speaker's surface. Tap this symbol to play or pause audio playback. For track navigation, refer to your connected device.

4.3 Placement

Due to its omnidirectional design, the Audio-Cube can be placed in various locations to achieve a surround sound effect. Experiment with placement in the center of a room or near walls to observe how the sound interacts with its environment.

5. Maintenance

5.1 Cleaning

Wipe the speaker's exterior with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals. Avoid getting moisture into any openings.

5.2 Storage

When not in use for extended periods, store the speaker in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery is partially charged before storing to prolong its lifespan.

5.3 Water Resistance

The Audio-Cube is waterproof. However, avoid submerging it in water for prolonged periods or exposing it to high-pressure water jets. Ensure all ports are dry before charging.

6. Troubleshooting

- **No Power:** Ensure the speaker is charged. Connect it to a power outlet using the integrated power cable.
- **No Sound:** Check the volume level on both the speaker and your connected device. Ensure the correct input source (Bluetooth or AUX) is selected. If using Bluetooth, ensure the device is properly paired.
- **Bluetooth Connection Issues:** Ensure the speaker is in pairing mode. Turn off and on Bluetooth on your device, then try pairing again. Move your device closer to the speaker.
- **Charging Issues:** Verify the power cable is securely connected to both the speaker and the wall outlet. If issues persist, try a different outlet. Note that there is no specific indicator for full charge; a 3-hour charging time is generally sufficient.
- **Battery Status on Phone:** Bluetooth 4.2, used by this speaker, may not display the battery status on your connected smartphone. This is a limitation of the Bluetooth version and not a defect.

7. Specifications
