## Sports Afield SA-RV2

# Sports Afield SA-RV2 Lightning Handgun Vault Instruction Manual

Model: SA-RV2 | Brand: Sports Afield

## 1. Introduction

The Sports Afield SA-RV2 Lightning Handgun Vault is designed to provide secure and rapid access to your handgun and other valuables. This vault features an illuminated electronic keypad, a spring-loaded door for quick deployment, and interior illumination to assist in low-light conditions. It is built to offer dependable protection and ease of use when needed most.

## 2. Safety Information

- Always store firearms unloaded and secured.
- Keep the vault keys in a secure location, separate from the vault itself, and out of reach of unauthorized individuals, especially children.
- Do not share your electronic keypad code with unauthorized persons.
- Ensure the vault is properly mounted or secured to prevent unauthorized removal.
- Regularly check the vault's functionality and battery status.

## 3. Package Contents

- Sports Afield SA-RV2 Lightning Handgun Vault
- Two (2) Override Keys
- Bolt Down Kit
- Instruction Manual

| Mounting Type | Freestanding, Tabletop |
| Alarm | Lock (Tamper Indicator) |
| Water Resistance Level | Not Water Resistant |
| Voltage | 9 Volts |
| Batteries Required | Yes (9V, not included) |

## 5. Setup

### 5.1 Battery Installation

1. Locate the battery compartment, typically on the underside or inside the door panel.
2. Insert a new 9-volt battery (not included), ensuring correct polarity.
3. Close the battery compartment securely.

### 5.2 Programming the Electronic Lock

1. With the vault open, locate the programming button (refer to the vault's interior for exact location).
2. Press the programming button. The keypad lights will illuminate.
3. Enter your desired 3-8 digit code using the illuminated buttons.
4. Press the programming button again to confirm. The vault will emit a confirmation sound or light.
5. Test your new code with the vault open to ensure it functions correctly before closing.

### 5.3 Bolt Down Kit Installation

The SA-RV2 includes a bolt-down kit for enhanced security. Follow these steps to secure your vault:

1. Choose a suitable location for your vault, ensuring it is on a stable surface.
2. Mark the drilling points through the pre-drilled holes in the vault's base.
3. Drill pilot holes into the mounting surface using an appropriate drill bit.
4. Align the vault with the drilled holes and secure it using the provided bolts and washers.
5. Ensure the vault is firmly attached and does not wobble.

## 6. Operating Instructions

### 6.1 Opening with Electronic Keypad

1. Enter your programmed 3-8 digit code on the illuminated keypad.
2. The spring-loaded door will automatically open, providing quick access to the contents.
3. To mute keypad sounds for silent access, refer to the programming section or the specific instructions provided with your vault for the mute setting.

### 6.2 Opening with Override Keys

In case of battery failure or forgotten code, use the override keys:

1. Locate the keyhole, usually discreetly placed near the keypad.
2. Insert one of the provided override keys and turn it to unlock the vault.
3. The door will open, allowing access.

### 6.3 Closing the Vault

To close the vault, simply push the door firmly until it latches securely. The electronic lock will automatically engage.

## 7. Maintenance

### 7.1 Battery Replacement

When the low battery alert activates, replace the 9-volt battery promptly to ensure continuous operation. Follow the battery installation steps in Section 5.1.

### 7.2 Cleaning

Wipe the exterior of the vault with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish or electronic components. The foam interior can be gently vacuumed or wiped to remove dust.

## 8. Troubleshooting

### 8.1 Tamper Indicator

The vault is equipped with a tamper indicator. If the vault has been tampered with, an alert (visual or audible) will activate. Refer to your vault's specific manual for details on how to reset or interpret the tamper alert.

### 8.2 Low Battery Alert

A low battery alert (LED and/or audio) indicates that the 9-volt battery needs to be replaced. Replace the battery as described in Section 7.1. The override keys can be used to access the vault if the battery dies completely.

### 8.3 Locked Out

If you are locked out due to a forgotten code or electronic malfunction, use the override keys to gain access. If keys are lost or the vault cannot be opened, contact Sports Afield customer support for assistance. Free locksmith services are available if you are locked out.

## 9. Warranty and Support

### 9.1 Lifetime Hassle-Free Warranty

Sports Afield offers a lifetime hassle-free warranty that guarantees your vault against theft, fire, and natural floods for life. This includes free replacement and free freight on all warranty claims within the USA.

### 9.2 10-Year Warranty

A 10-year warranty covers all parts, electronic locks, and paint defects.

### 9.3 Customer Support

For any questions, technical assistance, or warranty claims, please refer to the contact information provided on the Sports Afield official website or in the packaging materials. Free locksmith services are available if you are locked out of your vault.
