2. SAFETY INFORMATION

Please read and adhere to the following safety guidelines to ensure safe use and prevent damage to the product or injury.

- **Inspection:** Do not use the table if it appears damaged in any way. Inspect all components before assembly and periodically during use.
- **Weight Capacity:** Do not exceed the recommended weight capacity. Overloading the table can lead to instability and collapse.
- **Stability:** Always ensure adequate stability during use and especially when extending or retracting the table. Place the table on a flat, level surface.
- **Children and Pets:** Keep children and pets away from the table during assembly and extension/retraction to prevent pinching or other injuries.
- **Movement:** When moving the table, lift it rather than dragging it to prevent damage to the legs or floor surface.

3. COMPONENTS LIST

Before beginning assembly, ensure all components are present and undamaged. The package includes:

- Extendable aluminum table frame (graphite)
- Tabletop panels (main and extension leaves, graphite)
- Assembly hardware (screws, bolts, washers, etc.)
- Assembly tools (e.g., Allen key, if required)

4. SETUP AND ASSEMBLY

The HESPERIDE HES-139779 table requires assembly. Assembly is straightforward and typically takes approximately 15 minutes with two people.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Attach the legs to the main table frame using the provided hardware. Ensure all connections are secure but do not overtighten initially.
3. Carefully place the tabletop panels onto the frame, aligning them with the pre-drilled holes. Secure them with the remaining hardware.
4. Once all components are loosely assembled, gently tighten all screws and bolts. Do not force any connections.
5. Verify the table's stability by gently rocking it. Adjust leg connections if necessary to eliminate wobbling.

5. OPERATING INSTRUCTIONS: EXTENDING AND RETRACTING THE TABLE

The HESPERIDE HES-139779 table features an easy-to-use extension mechanism, allowing you to quickly adjust its length to accommodate more guests.

5.1. Extending the Table

1. Ensure there is sufficient clear space around the table for extension.
2. Gently pull one end of the tabletop outwards. The extension leaf stored underneath will begin to slide out.
3. Continue pulling until the extension leaf is fully exposed and aligned with the main tabletop.
4. Repeat the process for the other side if a second extension leaf is present or required.
5. Once fully extended, ensure the locking mechanisms (if any) are engaged to secure the table in its extended position.

2. Gently push the extension leaf back underneath the main tabletop until it is fully retracted.
3. Repeat for any other extension leaves.
4. Ensure all parts are neatly stored and the table is in its compact position.

6. MAINTENANCE AND CARE

Proper care will prolong the life and appearance of your HESPERIDE HES-139779 table.

- **Cleaning:** Clean the table regularly with a soft, damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly with clean water. Avoid abrasive cleaners or harsh chemicals.
- **Drying:** After cleaning, dry the table completely to prevent water spots or corrosion, especially on metal parts.
- **Protection:** While designed for outdoor use, consider covering the table during prolonged periods of non-use or extreme weather conditions (heavy rain, snow, intense sun) to protect its finish.
- **Storage:** If storing indoors for the off-season, ensure the table is clean and dry. Store in a cool, dry place.
- **Fasteners:** Periodically check all screws and bolts and tighten them if necessary to maintain stability.
