SETUP AND TRANSFORMATION

The Blast Off figure can transform between two primary modes: Space Shuttle and Robot. It can also convert into an arm or leg for a larger Combiner robot.

1. Space Shuttle Mode

In this mode, Blast Off resembles a brown and purple space shuttle. The Megatronus Prime Master can be stored within the figure or used separately.

MAINTENANCE

To ensure the longevity of your action figure:

- **Cleaning:** Wipe the figure with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the paint or plastic.
- **Storage:** Store the figure away from direct sunlight and extreme temperatures to prevent discoloration or warping.
- **Handling:** Handle all joints and moving parts gently during transformation to prevent breakage.

TROUBLESHOOTING

If you encounter issues with your figure:

- **Stiff Joints:** If joints are stiff, apply gentle, consistent pressure. Do not force movement, as this can cause damage. Some joints may require a few transformations to loosen slightly.
- **Transformation Difficulties:** Refer to the visual instructions provided with the product for detailed step-by-step guidance. Ensure all parts are aligned correctly before attempting to complete a

transformation step.
