Scheppach LB5200BP

SCHEPPACH LB5200BP 51.7cm³ Backpack Leaf Blower User Manual

Model: LB5200BP

1. INTRODUCTION

This manual provides essential information for the safe and effective operation, assembly, and maintenance of your Scheppach LB5200BP 51.7cm³ Backpack Leaf Blower. Please read these instructions thoroughly before using the product to ensure proper function and to prevent injury or damage.

Image 1.1: Scheppach LB5200BP Backpack Leaf Blower, showing the engine unit, flexible hose, and blower tube with handle.

2. IMPORTANT SAFETY INFORMATION

Always observe basic safety precautions to reduce the risk of fire, electric shock, and personal injury. Keep this manual for future reference.

- **Read all instructions:** Familiarize yourself with the controls and proper use of the equipment.
- **Wear appropriate personal protective equipment (PPE):** This includes eye protection, hearing protection, long pants, sturdy footwear, and gloves.
- **Fuel handling:** Handle gasoline with extreme care. It is highly flammable. Store fuel in approved containers and in a well-ventilated area. Never refuel while the engine is running or hot.
- **Engine exhaust:** The engine produces carbon monoxide, a colorless, odorless, poisonous gas. Operate only in well-ventilated outdoor areas.
- **Keep bystanders away:** Ensure children, pets, and other people are at a safe distance (at least 15 meters) from the operating area.
- **Inspect the work area:** Remove any objects that could be thrown by the air stream, such as rocks, glass, or metal pieces.
- **Avoid loose clothing:** Loose clothing, jewelry, or long hair can get caught in moving parts.
- **Do not operate in wet conditions:** Avoid using the blower in rain or on wet surfaces to prevent slipping and potential damage to the equipment.
- **Maintain a firm footing:** Always ensure stable balance, especially when working on slopes.
- **Never point the blower nozzle at people or animals.**
- **Regular maintenance:** Keep the equipment in good working order by performing regular maintenance as described in this manual.

3. COMPONENTS AND PARTS LIST

The Scheppach LB5200BP backpack leaf blower includes the following main components:

- Engine block with backpack harness
- Flexible hose
- Upper blower tube
- Lower blower tube
- Nozzle
- Fuel mixing bottle (for 2-stroke mixture)
- Hose clamps
- Spark plug wrench
- Allen key
- Open-end wrench

4. ASSEMBLY

Follow these steps to assemble your leaf blower:

1. **Attach the Flexible Hose:** Connect the flexible hose to the engine block outlet. Secure it firmly

with the provided hose clamp.

2. **Connect the Blower Tubes:** Attach the upper blower tube to the flexible hose, then connect the lower blower tube to the upper tube. Ensure all connections are secure.
3. **Install the Nozzle:** Fasten the nozzle to the end of the lower blower tube.
4. **Mount the Control Handle:** Position the control handle on the blower tube at a comfortable working height and secure it with the provided fasteners.

Assemblage facile des différents composants.

Image 4.1: Close-up showing the easy assembly of different components, specifically securing a tube section with a clamp.

5. SETUP AND FUELING

5.1 Fuel Mixture

The LB5200BP uses a 2-stroke gasoline engine. It requires a specific fuel mixture of gasoline and 2-stroke engine oil. The recommended mixing ratio is **40:1 (40 parts gasoline to 1 part 2-stroke oil)**

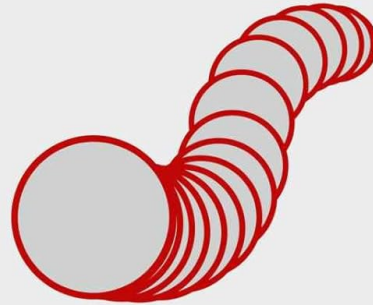

- Use fresh, unleaded gasoline with an octane rating of 90 RON or higher.

- Use high-quality 2-stroke engine oil specifically designed for air-cooled engines.
- Mix the fuel in the provided mixing bottle or an approved fuel container. Shake well before pouring into the fuel tank.

Fonction démarrage facile

Tuyau flexible

Mélange de carburant 40:1

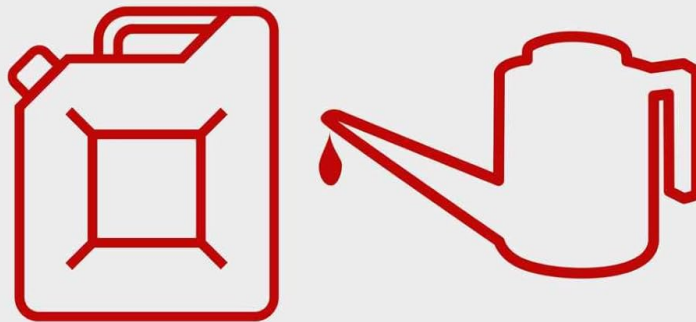

Image 5.1: Diagram illustrating the 40:1 fuel mixture ratio for the 2-stroke engine.

5.2 Filling the Fuel Tank

1. Ensure the engine is off and cool.
2. Move to a well-ventilated outdoor area, away from sparks or open flames.
3. Carefully open the fuel tank cap.
4. Pour the pre-mixed fuel into the tank, avoiding overfilling.
5. Securely close the fuel tank cap. Wipe up any spilled fuel immediately.

6. OPERATING INSTRUCTIONS

6.1 Wearing the Backpack Blower

The LB5200BP features a comfortable, fully adjustable, padded, and vibration-dampening backpack harness. Adjust the straps to ensure a snug and balanced fit, distributing the weight evenly across your shoulders and back for fatigue-free operation.

Harnais dorsal moteur, avec larges bretelles, rembourrage dorsal et aéré, amorti les vibrations, pour un travail sans fatigue.

Image 6.1: Close-up of the backpack harness, highlighting the wide, padded, and ventilated straps designed to absorb vibrations for comfortable use.

6.2 Starting the Engine (Easy Start Function)

The blower is equipped with an Easy Start function for simplified starting.

1. Place the blower on a flat, stable surface.
2. Set the choke lever to the 'START' position (usually closed).
3. Press the primer bulb several times until fuel is visible in the return line.
4. Pull the starter cord firmly and smoothly until the engine attempts to start or runs briefly.
5. Once the engine fires, move the choke lever to the 'RUN' position (usually open).
6. If the engine does not start, repeat the process. If it starts and stalls, ensure the choke is in the 'RUN' position and try again.

6.3 Operating the Blower

Once the engine is running and warmed up, you can begin operation.

- **Control Handle:** The adjustable control handle allows for an ergonomic working position. Use the throttle trigger to control the air speed.
- **Sweeping Motion:** Use a sweeping motion to move leaves and debris. Work in sections, pushing debris into piles.
- **Air Speed:** The powerful engine delivers a very high air speed of 295 km/h, making it effective for various tasks.
- **Flexible Hose:** The flexible hose remains pliable even at low temperatures, ensuring consistent performance.

La poignée orientable permet d'ajuster une position de travail ergonomique.

Image 6.2: Close-up of the orientable handle, allowing adjustment for an ergonomic working position.

Tuyau flexible également à basses températures.

Image 6.3: Detail of the flexible hose, designed to remain flexible even in low temperatures.

6.4 Applications

The Scheppach LB5200BP is suitable for various applications, including:

- Clearing leaves from gardens, lawns, and pathways.
- Blowing away light debris from terraces and driveways.
- Cleaning farm areas and other large outdoor spaces.

EXEMPLES D'APPLICATIONS

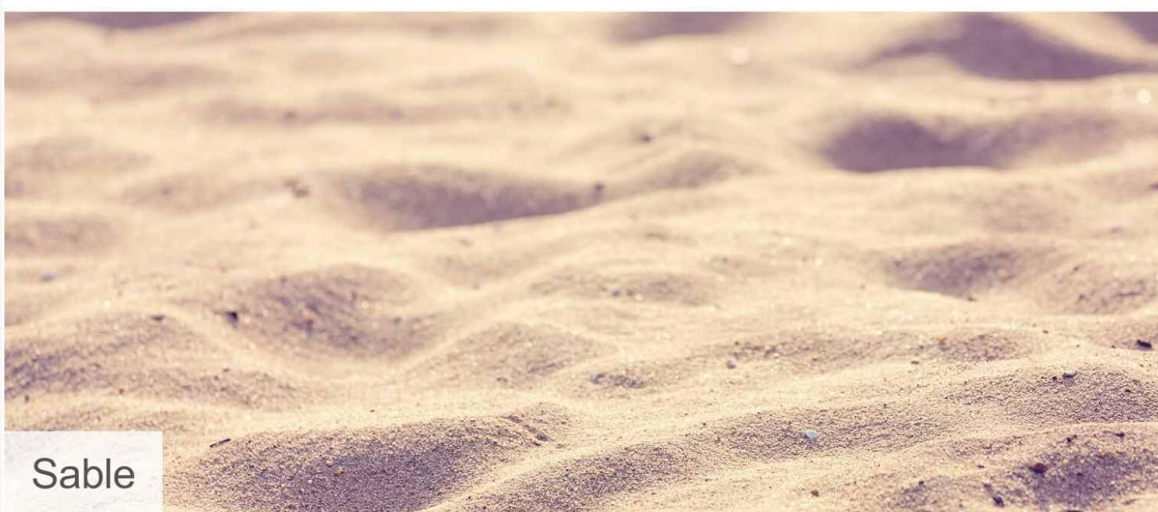

Image 6.4: Examples of applications, showing the blower's effectiveness on leaves and sand.

UTILISATIONS CONVIENT POUR

Jardin

Terrasse

Ferme

Image 6.5: Icons indicating suitability for garden, terrace, and farm applications.

7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your leaf blower.

- **Air Filter:** The high-performance air filter should be regularly inspected and cleaned. A dirty air filter can reduce engine performance and increase fuel consumption. Clean with compressed air or wash with warm, soapy water and allow to dry completely before reinstallation.
- **Spark Plug:** Inspect the spark plug periodically. Clean or replace if it is fouled or damaged. Ensure the correct gap is maintained.
- **Fuel Filter:** Check the fuel filter inside the fuel tank for debris. Replace if necessary.
- **Cooling Fins:** Keep the engine's cooling fins clean to prevent overheating.
- **General Cleaning:** After each use, clean the exterior of the blower to remove dirt and debris.
- **Storage:** When storing for extended periods, drain the fuel tank or use a fuel stabilizer. Store in a dry, well-ventilated area, away from direct sunlight and extreme temperatures.

8. TROUBLESHOOTING

This section addresses common issues you might encounter with your leaf blower.

Problem	Possible Cause	Solution
Engine does not start	No fuel or incorrect fuel mixture Choke in wrong position Spark plug fouled or damaged Air filter clogged	Check fuel level and mixture (40:1) Adjust choke lever Clean or replace spark plug Clean air filter
Engine runs, but lacks power	Clogged air filter Incorrect fuel mixture Spark plug issue	Clean air filter Verify fuel mixture Inspect/replace spark plug
Excessive vibration	Loose components Damaged fan/impeller	Check all connections and fasteners Inspect fan for damage; contact service if necessary
Engine overheats	Clogged cooling fins Incorrect fuel mixture	Clean cooling fins Verify fuel mixture

If you encounter problems not listed here or if the suggested solutions do not resolve the issue, please contact Scheppach customer support or an authorized service center.

9. SPECIFICATIONS

Feature	Specification
Model Name	LB5200BP
Engine Type	2-stroke gasoline engine
Engine Displacement	51.7 cm ³
Engine Power	1.4 kW / 1.9 HP
Max Air Speed	295 km/h
Max Air Volume	1080 m ³ /h
Fuel Mixture Ratio	40:1 (Gasoline:2-stroke oil)
Weight	7.9 kg

Feature	Specification
Dimensions (L x W x H)	138 x 40 x 45 cm
Material	Plastic
Special Feature	Anti-vibration system

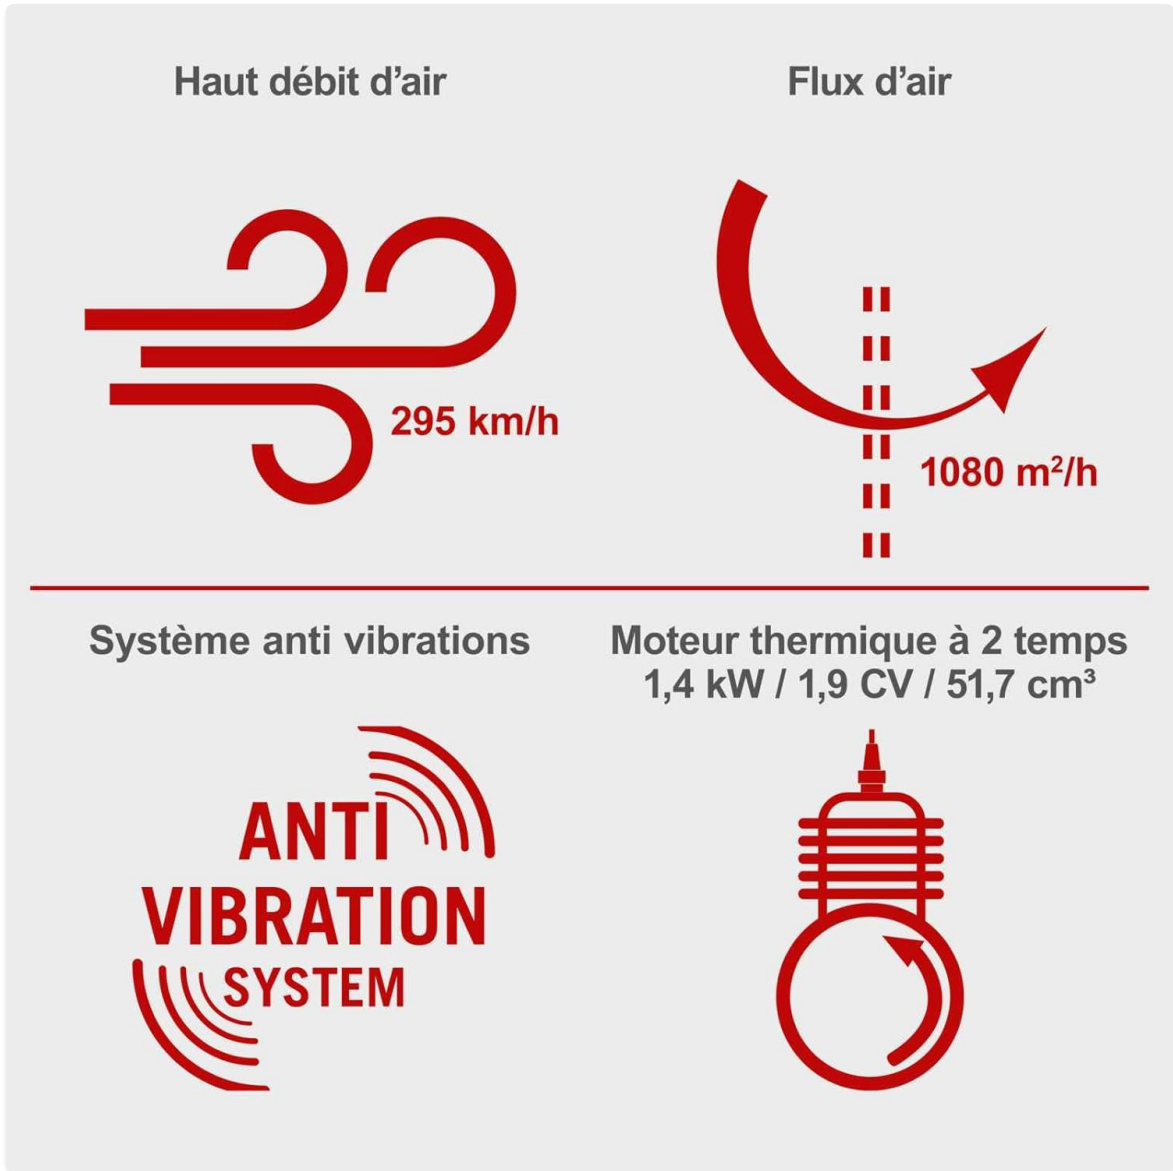

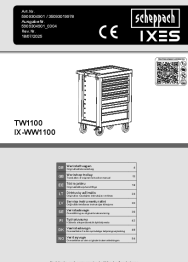

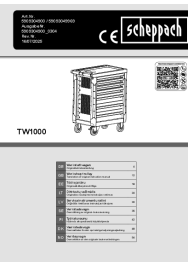

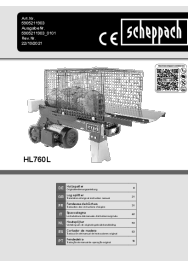

Image 9.1: Diagram illustrating key specifications including high air speed (295 km/h), air flow (1080 m³/h), anti-vibration system, and 2-stroke engine details (1.4 kW / 1.9 HP / 51.7 cm³).

10. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation provided with your product at the time of purchase or visit the official Scheppach website. For technical support, spare parts, or service inquiries, please contact your local Scheppach dealer or the customer service department. You can also visit the [Scheppach Brand Store](#) for more information on products and accessories.
