## 1. PRODUCT OVERVIEW

The Magnet Source 07549 Adjustable Magnetic Paper Towel Holder is designed for convenient and flexible storage of paper towel rolls, cleaning wipes, and glove boxes. This 2-piece set eliminates the need for permanent installation, utilizing powerful magnets with a non-scratch liner for attachment to any flat ferrous metal surface. Its robust black metal housing is built for durability and versatility in various environments.

### Key Features:

- **Powerful Magnet:** Equipped with a strong magnet and a non-scratch liner for secure attachment to ferrous metal surfaces without causing damage.
- **Versatile Placement:** Ideal for use in kitchens, garages, workshops, offices, or any area with suitable metal surfaces, providing easy access to paper towels or other items.
- **Adjustable Design:** Features an adjustable knob that allows for a 1 to 3-inch range, accommodating various sizes of paper towel rolls, boxes, and cleaning wipe packs.
- **Sturdy Construction:** Constructed with a durable black metal housing, capable of holding rolls up to 6 inches in diameter.
- **Space-Saving:** A practical solution for maximizing counter or shelf space by utilizing vertical or side surfaces.

## 2. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove the two magnetic paper towel holder pieces from their packaging.
2. **Identify Mounting Surface:** Select a clean, flat ferrous metal surface for mounting. Examples include refrigerators, toolboxes, metal cabinets, or other steel surfaces. Ensure the surface is free of dust, grease, or debris for optimal magnetic adhesion.
3. **Attach Holders:** Place each magnetic holder directly onto the chosen metal surface. The powerful magnets will secure them in place. Ensure they are positioned parallel to each other and at an appropriate distance to accommodate your paper towel roll or item.
4. **Adjust Spacing:** The holders are designed to be adjustable. Position them to match the width of the paper towel roll or item you intend to hold.
5. **Load Item:** Insert your paper towel roll, cleaning wipe box, or glove box between the two holders.
6. **Adjust Knob (if necessary):** If your item is particularly thick or thin, you can adjust the knob on each holder to extend or retract the arm, providing a snug fit. The knob allows for adjustment between 1 to 3 inches.

**Attach to toolboxes, refrigerators or other ferrous metal surfaces around the shop, home, office, warehouse, garage, or school.**

Sujete a cajas de herramientas, refrigeradores u otras superficies de metal ferroso alrededor de la tienda, casa, oficina, almacén, garaje o escuela.

Joinez à des boîtes à outils, des réfrigérateurs ou des autres surfaces de métaux ferreux dans le magasin, la maison, le bureau, l'entrepôt, le garage, ou l'école.

### **3. OPERATION**

Once installed, the Magnet Source 07549 holder provides easy access to your paper towels or other stored items. Simply pull the desired amount of paper towel from the roll. The strong magnetic hold ensures the holders remain stable during use.

#### **Adjusting for Different Items:**

- To accommodate wider or narrower items, gently slide the two magnetic holders further apart or closer together on the metal surface.
- For items with varying thickness, rotate the adjustment knob on each holder to extend or retract the arm, ensuring a secure grip. The arms can adjust from 1 to 3 inches.

## 4. CARE AND MAINTENANCE

- **Cleaning:** Wipe the holders with a damp cloth and mild detergent as needed. Avoid abrasive cleaners or solvents that could damage the finish or magnetic liner.
- **Magnetic Surface:** Periodically check the magnetic contact surface on both the holders and the mounting surface for cleanliness. Dust or debris can reduce magnetic adhesion.
- **Storage:** If removing the holders for extended periods, store them in a clean, dry place.

## 5. TROUBLESHOOTING

| Problem                            | Possible Cause                                                                                                          | Solution                                                                                                                                                                                                                                                                               |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Holders slide or fall off surface. | Surface is not ferrous metal.<br>Surface is dirty or greasy.<br>Excessive weight applied.<br>Magnetic liner is damaged. | Ensure mounting surface is steel or other ferrous metal.<br>Clean the mounting surface and the magnetic pads on the holders.<br>Do not exceed the recommended load (e.g., standard paper towel rolls, light boxes).<br>Inspect the non-scratch liner for damage; replace if necessary. |
| Paper towel roll does not fit.     | Holders are too close or too far apart.<br>Adjustment knob not set correctly.                                           | Adjust the horizontal spacing of the two holders.<br>Rotate the adjustment knob to extend or retract the arms to fit the item's thickness (1-3 inch range).                                                                                                                            |
