Rust-Oleum 330505

Rust-Oleum Universal All Surface Spray Paint (Model 330505)

Matte Farmhouse Black, 12 oz

PRODUCT OVERVIEW

Rust-Oleum Universal Paint and Primer in one is an all-surface paint designed for both interior and exterior applications. This oil-based formula provides long-lasting protection and durability, preventing rust and corrosion while resisting fading and chipping. The comfort grip trigger delivery system is engineered to reduce finger fatigue during continuous spraying, and the 'any angle' spray feature allows for application even upside down. This product is suitable for a wide range of surfaces including wood, plastic, metal, fiberglass, concrete, glass, wicker, and vinyl.

KEY FEATURES

- Works on virtually any surface including wood, plastic, metal, fiberglass, concrete, wicker, vinyl and more.
- Oil-based formula with excellent adhesion prevents rust, resists fading and chipping for a long lasting finish.
- Fast drying formula dries to the touch in 30 minutes and covers up to 15 sq ft per can.
- Prevents rust and corrosion for enhanced durability.
- Matte finish provides an attractive, soft sheen on surfaces.

SETUP AND PREPARATION

Surface Preparation

Proper surface preparation is crucial for optimal adhesion and finish quality. Ensure the surface is clean, dry, and free of loose paint, rust, dirt, oil, and grease.

- **Wood Surfaces:** Sand the item to remove any loose paint or rough spots.
- **Plastic Objects:** Lightly sand the surface to roughen it, which improves paint adhesion.
- **Metal Objects:** Sand to remove any rust or loose paint.

Image: Rust-Oleum Universal paint is compatible with various surfaces including wood, metal, plastic, and masonry.

Cleaning

After preparation, all surfaces should be cleaned. Use a lint-free cloth with soap and water, or an all-purpose cleaner. Ensure surfaces are thoroughly dry before painting.

Masking and Elevation

Use painter's tape to mask off any areas that do not need to be painted. For smaller items like hardware, screw them into a piece of cardboard to elevate them, providing a sturdy base and allowing for better coverage. For larger objects like vases or lamps, use a cardboard base to elevate the item, preventing it from adhering to the surface and ensuring even spray application.

OPERATING INSTRUCTIONS

Shaking the Can

Prior to painting, shake the can thoroughly for one minute after the mixing ball begins to rattle. Continue to shake occasionally during use.

Application Technique

Hold the can upright, about 8 to 12 inches away from the project. Apply paint using light coats and a continuous motion. Start and stop spraying past the edge of the object to ensure smooth paint strokes and prevent drips. Steadily move the can back and forth across the item in a straight line.

Comfort Trigger and Any Angle Spray

The Rust-Oleum Universal trigger provides a comfortable, ergonomic grip that can be sprayed at any angle, including upside down, for hard-to-reach areas. The cap of the can matches the color of the paint for easy

reference.

Image: The comfort trigger allows for spraying at any angle, including upside down.

Coats and Drying Times

It is recommended to apply two or more light coats to your project. Allow adequate drying time between coats.

- **Dry to Touch:** 30 minutes
- **Dry to Handle:** 1 hour
- **Fully Dry:** 24 hours

Apply a second coat within one hour or after 48 hours for best results.

MAINTENANCE

To maintain the finish and prolong the life of your painted items, regularly clean surfaces with mild soap and water. The oil-based formula provides rust and corrosion prevention, but avoiding prolonged exposure to harsh elements will further extend durability.

TROUBLESHOOTING

- **Uneven Spray/Drips:** Ensure the can is shaken thoroughly before and during use. Maintain a consistent distance of 8-12 inches from the surface and use light, sweeping motions. Avoid over-applying paint in one spot.
- **Poor Adhesion:** Verify that the surface was properly cleaned and prepared (sanded if necessary) and completely dry before application.
- **Slow Drying:** Ensure proper ventilation and appropriate temperature/humidity conditions. Applying too thick of a coat can also prolong drying time.
- **Rust Reappearance:** While the paint prevents rust, severe rust may require additional treatment or multiple coats. Ensure all existing rust is removed during preparation.

SPECIFICATIONS

Attribute	Detail
-----------	--------

Brand	Rust-Oleum
Model Number	330505
Color	Farmhouse Black
Finish Type	Matte
Size	12 Ounce (Pack of 1)
Item Volume	354.88 Milliliters
Paint Type	Spray
Specific Uses	Interior/Exterior
Surface Recommendation	Glass, Metal, Plastic, Vinyl, Wood
Dry Time (to touch)	0.5 Hours
Coverage	15 sq ft
UPC	020066380397
