## 1. INTRODUCTION

The Tiny Love Musical Sound n Sleep Star Projector is designed to create a calming and soothing environment for your baby, promoting peaceful sleep. This device combines a soft night light, star projection, calming sounds, and music, along with a cry sensor for automatic activation.

## Key Features:

- Adjustable soft night light
- Star projection
- Cry sensor for automatic activation
- Volume control
- Built-in MP3 player for custom music uploads
- USB input for charging and music transfer
- Auto-off timer (10, 30, or 60 minutes)

## 2. SETUP

---

### 2.1 Powering the Device

The projector is battery-powered and can be charged via its USB input. Before first use, ensure the device is fully charged.

1. Locate the USB port on the back of the projector.
2. Connect the provided USB cable to the projector and to a compatible USB power adapter (not included) or a computer USB port.
3. Allow the device to charge until the charging indicator light (if present) indicates a full charge.

### 2.2 Custom Music Upload (Optional)

The built-in MP3 player allows you to upload your preferred songs.

1. Connect the projector to a computer using the USB cable.
2. The projector should appear as a removable storage device on your computer.
3. Drag and drop your desired MP3 audio files into the designated music folder on the projector.
4. Safely eject the device from your computer before disconnecting the USB cable.

## 4. MAINTENANCE

---

### 4.1 Cleaning

- Wipe the projector with a soft, damp cloth.

- Do not use abrasive cleaners or immerse the device in water.
- Ensure the device is completely dry before storage or next use.

## 4.2 Storage

- Store the projector in a cool, dry place away from direct sunlight.

## 5. TROUBLESHOOTING

### 5.1 Device Not Turning On

- Ensure the battery is sufficiently charged. Connect to a USB power source and allow time for charging.

### 5.2 No Sound or Low Volume

- Check the volume level using the Volume Up (+) button.
- Ensure the device is not muted.

### 5.3 Star Projection Not Visible

- Ensure the room is sufficiently dark for optimal projection visibility.
- Verify that the Star Projection button has been pressed to activate the feature.

### 5.4 Cry Sensor Not Activating

- Ensure the Cry Sensor button is activated.
- Check for any obstructions near the sensor.
- The sensor is designed to detect baby's cries; other loud noises may not trigger it.
