Instruction Manual

MASTER LOCK 5422D PUSH LOCK BOX

Model: 5422D

Product Overview

The Master Lock 5422D Push Lock Box is a robust and convenient solution for securing keys or other small valuables. Designed for durability and ease of use, it features a push-button combination for keyless access, making it ideal for real estate, property management, or personal use.

The Master Lock 5422D Push Lock Box is shown with its black shackle at the top, a silver-colored main body, and a black push-button keypad on the front. The keypad has ten circular buttons arranged in a 3x3 grid with a single button below, labeled with numbers 0-9 and corresponding letters. A small black lever is visible above the keypad, and the Master Lock logo is at the bottom right.

Key Features:

- **Keyless Convenience:** Set your own combination for easy access.
- **Durable Construction:** Metal body for enhanced security.
- **Portable Design:** Shackle allows for easy attachment to doorknobs, fences, or railings.
- **Spacious Interior:** Accommodates multiple keys.

Specifications

Brand	Master Lock
Model Number	5422D
Lock Type	Combination Lock
Special Feature	Keyless
Material	Metal
Item Dimensions (L x W x H)	2.2 x 5.3 x 7.2 inches
Item Weight	1.89 pounds
Included Components	Mounting hardware, combination reset tool

Setup

Setting Your Combination

The Master Lock 5422D comes with a factory-set combination (usually 0-0-0-0 or a specific code indicated on packaging). It is highly recommended to change this to a personal, memorable combination immediately.

Initial Setup (First Use):

1. Open the lock box using the factory-set combination.
2. Inside the lock box, locate the reset lever on the back of the door.
3. Move the reset lever from position A to position B (or from the current position to the alternate position, typically indicated by an arrow).
4. Enter your new desired combination on the keypad. Ensure the buttons are fully depressed.
5. Move the reset lever back to position A (or its original position).
6. Close the lock box door and scramble the buttons to lock it.
7. *Test your new combination* before securing the lock box to ensure it opens correctly.

Changing the Combination (After Initial Setup):

1. Open the lock box using the current combination.
2. Locate the reset lever on the back of the door.
3. Move the reset lever from position A to position B.
4. Enter your new desired combination on the keypad.

5. Move the reset lever back to position A.
6. Close the lock box door and scramble the buttons.
7. *Test your new combination* before securing the lock box to ensure it opens correctly.

Important: Remember your combination. There is no master key or override code if the combination is lost.

Operating Instructions

Opening the Lock Box:

1. Enter your current combination by pressing the corresponding buttons. Each button should click when pressed.
2. Once the combination is entered, push down the black lever located above the keypad.
3. The door of the lock box will spring open.

Closing and Securing the Lock Box:

1. Place the items securely inside the lock box.
2. Close the door firmly until it clicks shut.
3. Scramble the combination buttons by pressing random buttons to ensure the lock box is secured and the combination is hidden.

Maintenance

Regular maintenance helps ensure the longevity and smooth operation of your Master Lock 5422D Push Lock Box.

- **Cleaning:** Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or internal mechanisms.
- **Lubrication:** Periodically, apply a small amount of silicone-based lubricant to the shackle and the internal locking mechanism to ensure smooth operation. Do not use oil-based lubricants as they can attract dirt.
- **Environmental Exposure:** While designed for outdoor use, prolonged exposure to extreme weather conditions (e.g., heavy rain, freezing temperatures) may affect performance. Consider placing it in a sheltered location if possible.
- **Check for Wear:** Regularly inspect the shackle and body for any signs of damage or wear that might compromise security.

Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

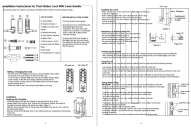

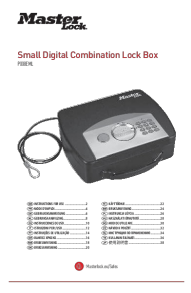

Problem	Possible Cause	Solution
Lock box will not open after entering combination.	Incorrect combination entered; buttons not fully depressed; mechanism stuck.	Double-check the combination and ensure each button is fully pressed. Ensure the black lever above the keypad is pushed down completely. Apply a small amount of silicone lubricant to the lever and try again.
Shackle is difficult to open or close.	Dirt or debris in the shackle mechanism; lack of lubrication.	Clean the shackle area. Apply silicone lubricant to the shackle and work it back and forth.
Combination reset lever is stuck.	Mechanism is stiff or dirty.	Ensure the lock box is open and the current combination is entered. Gently try to move the lever. Do not force it. If persistent, contact Master Lock customer support.

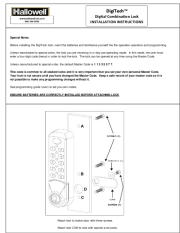

Warranty and Support

Master Lock products are manufactured to demanding quality standards. For specific warranty information regarding your Master Lock 5422D Push Lock Box, please refer to the warranty documentation included with your purchase or visit the official Master Lock website.

For further assistance, technical support, or to inquire about replacement parts, please contact Master Lock customer service directly. You can often find contact information on the Master Lock official website or through the [Master Lock Store on Amazon](#).
