6. Maintenance and Care

Proper care will extend the life and beauty of your vanity.

- **Cabinet:** Clean the lacquered wood cabinet with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals. Wipe spills immediately.
- **Marble Countertop:** Clean with a pH-neutral cleaner specifically designed for natural stone. Avoid acidic cleaners (vinegar, lemon juice) as they can etch the marble. Wipe dry after cleaning.
- **Porcelain Sink:** Clean with mild soap and water. For stubborn stains, use a non-abrasive porcelain cleaner.
- **Hardware:** Wipe brushed chrome knobs and handles with a soft, dry cloth. Avoid chemical cleaners that may damage the finish.
- **General:** Ensure proper ventilation in the bathroom to prevent excessive moisture buildup, which can affect wood products.

7. Troubleshooting
