Zinus FGPP-Q

ZINUS Judy Upholstered Platform Bed Frame User Manual

Model: FGPP-Q | Brand: Zinus

Introduction

The ZINUS Judy Upholstered Platform Bed Frame is designed to bring modern style and robust support to your bedroom. Featuring an asymmetrical geometric upholstered headboard with cozy foam padding, this bed frame offers both aesthetic appeal and comfort. Its innovative packaging ensures all parts, tools, and instructions are conveniently located within the headboard's zippered compartment for easy assembly.

This platform bed utilizes durable wood slats to support and extend the life of your mattress, eliminating the need for a traditional box spring. The slats are spaced 2.2 - 2.8 inches apart, providing optimal support for various mattress types including latex, memory foam, or spring mattresses.

The Queen size model supports a maximum weight capacity of 700 lbs, ensuring longevity and stability.

Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Do not exceed the maximum weight capacity of 700 lbs (350 lbs for Twin size).
- This bed frame is designed for adult use only.
- Ensure all bolts and screws are securely tightened before use and periodically check for tightness.
- Keep small parts and packaging materials away from children to prevent choking hazards.

Package Contents

All components required for assembly are efficiently packed within the zippered compartment located in the back of the headboard.

- Upholstered Headboard
- Bed Frame Components (Side Rails, Center Support Beams)
- Wood Slat Roll (with Velcro attachments)
- Wooden Legs
- Assembly Hardware (screws, bolts, washers)
- Assembly Tools (Hex wrench, Hex ratchet)

Setup and Assembly Instructions

The ZINUS Judy Platform Bed is designed for easy, two-person assembly in under an hour. All necessary parts and tools are included.

Assembly Overview

The bed frame components are cleverly folded and stored within the headboard. Begin by unzipping the compartment and carefully removing all parts. The main frame consists of metal beams that unfold and connect, forming a sturdy base. The upholstered side rails and footboard then attach to this metal structure, followed by the wood slats.

Step-by-Step Assembly

For a visual guide, please refer to the official assembly video below. The video demonstrates the unfolding of the frame, attachment of legs, and securing of all upholstered sections and slats.

Video 1: Detailed assembly guide for the ZINUS Judy Platform Bed. This video provides step-by-step instructions for unpacking, assembling the metal frame, attaching the headboard and side rails, and securing the wood slats.

1. **Unpack Components:** Carefully unzip the headboard compartment and remove all bed frame parts, hardware, and tools.
2. **Assemble Center Frame:** Unfold the metal center support beams. Connect them as per the instructions, ensuring the support legs are extended and locked into place.
3. **Attach Headboard:** Position the headboard upright. Align the pre-drilled holes on the headboard with the corresponding attachment points on the metal frame. Secure using the provided bolts and the hex ratchet tool.
4. **Attach Footboard and Side Rails:** Connect the upholstered footboard and side rails to the metal frame. Ensure all connections are snug and secure.

5. **Install Wooden Legs:** Screw the wooden legs into the designated threaded inserts on the bed frame.
6. **Lay Out Wood Slats:** Unroll the wood slat system across the bed frame. The slats are connected by a fabric strap and feature Velcro strips on the underside. Align the Velcro on the slats with the corresponding Velcro on the bed frame side rails to ensure proper spacing and prevent shifting.
7. **Final Tightening:** Double-check all bolts and screws to ensure they are fully tightened for maximum stability.

Operating Instructions

Once assembled, your ZINUS Judy Platform Bed Frame is ready for use. Simply place your mattress directly onto the wood slats. No box spring is required, as the robust slat system provides ample support for your mattress.

Maintenance and Care

- **Cleaning:** For the upholstered headboard and frame, spot clean only with a mild detergent and a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain the bed frame's stability and prevent creaking.
- **Moving the Bed:** When moving the bed, lift it rather than dragging it to prevent damage to the legs or frame.

Troubleshooting

- **Creaking Noises:** If the bed frame creaks, ensure all bolts and screws are securely tightened. Over time, connections may loosen and require re-tightening.
- **Mattress Sliding:** If your mattress tends to slide on the slats, ensure the Velcro strips on the slats are properly aligned and adhered to the frame. You may also consider using a non-slip mattress pad between the mattress and the slats.
- **Assembly Difficulties:** If you encounter issues during assembly, double-check the instruction manual and ensure all parts are correctly oriented. The zippered compartment in the headboard contains all necessary tools and hardware.

Specifications

Feature	Detail
Size	Queen
Product Dimensions	80.5"L x 62.6"W x 43"H
Color	Grey
Material	Upholstered (fabric), Steel, Wood
